PREFACE

The *Directory of Iraqi Officials* identifies individuals who hold positions in selected government, party, or other public organizations in the Republic of Iraq. It also provides a guide to the internal structure of some of these organizations.

Dates of Information. The date columns list the date an individual either assumed or was first identified in a position, and the date of his most recent identification in that position.

Transliteration. The transliteration of organization and personal names from Arabic follows Department of State guidelines, with minor revisions.

Personal Names. Many Iraqi names contain several elements. Listings in this directory are by the last element of the name and include all known elements of the name, except where a figure is best known by a shortened version.

An index to major organizations and a index of personalities follow the directory listing. Duplicate names in the personality index refer to different individuals.
