

Human Resource Modernization and
Compensation Task Force

FLEXIBLE BENEFITS SURVEY

Because of the strong interest expressed in the Flexible Benefits feature of the Human Resource Modernization and Compensation Task Force study, we are continuing our effort to design a Flexible Benefits Program. To ensure this program meets the needs of employees and their families, we plan to seek your opinions on our current benefits program and additional options that could be offered under a Flexible Benefits Program. In order to obtain this critical input, the Office of Personnel will soon distribute an Employee Benefits Survey to each employee presently eligible for Federal insurance benefits. Because the survey results will be used in designing the Flexible Benefits Program, we urge you to take advantage of this opportunity to influence the final product.

We realize that completing this survey will take time but we really need the information to design a plan which will fit your needs. We are mailing the survey directly to you. If you do not receive one by 31 December 1987, please contact your component personnel office or call Marie
