Dear Mr. Sterne:

The cartoon on page A-18 of your 30 October edition is in the poorest of taste. I find the gratuitous suggestion that the Central Intelligence Agency had even some remote connection with the murder of President Park disgusting.

You on the one hand demand perfection from this Agency while on the other print scurrilous material to malign our reputation and damage the morale of our hard working and loyal employees. You can't have it both ways.

Sincerely,

/s/ Frank C. Carlucci
