PAPER CONNECTS KENNEDY ASSASINATION WITH CIA

FOIAB3B

-- Athens, I Avgi, 20 Nov 66

[The Communist-oriented Athens daily newspaper I Avgi, taking advantage of the controversy swirling around the Warren Commission Report, carried an article on the assassination titled "Was There a Second Assassin? The Footsteps of Oswald and Ruby Lead to the Door of CIA." Accompanying the half-page report, written by the paper's New York correspondent Khristos Nikolopoulos, was the photograph showing Oswald's murder by Ruby. The writer cites the Esquire magazine article and photographs on the assassination, the article in the Columbia University Legal Review by Paul Reiz (approximation from Greek), the Edward Epstein book Inquest, Rush to Judgment by Mark Lane, Harold Weisberg's Whitewash, The Second Oswald by Richard Popkin, and the Oswald Affair by Leo Sauvage of Le Figaro, in his report. Statements by Weisberg in his book in which he charges that "Oswald was the agent of some US secret service and was used by it either as the assassin or as an 'alibi'" as well as what the writer claims were an "abundance of data," are used as a basis for the sole tie-in to CIA. The writer concludes that Oswald was a "trotskyite," by his "own admission," and therefore an enemy of the USSR who "worked closely with various agents who cooperated with anti-Castro Cubans in the US."]
