CRITICAL COLLECTION PROBLEMS COMMITTEE
OF THE
UNITED STATES INTELLIGENCE BOARD

TS 204206/72/1
USIB-D-64.7/2
CCPC-D-18/72

30 October 1972

MEMORANDUM FOR : Chairman, United States Intelligence Board
SUBJECT : CCPC Study of Intelligence Activities Against
Narcotics and Dangerous Drugs

1. The attached study, prepared in response to your Memorandum for USIB Principals, (TAB) is forwarded for your review.

2. The study took an exceptionally long time due in large part to the difficulty of integrating new elements into the committee structure and going through the tedious process of getting useful information from them. The attached study was approved without any expressed reservations.

3. The footnote to the final recommendation (page 42) is to focus attention on the CCINC intelligence subcommittee as the presently constituted element responsible for leadership and coordination of the narcotics intelligence effort. A majority of the CCPC members feel that this subcommittee has not yet shown the necessary capability to carry out this important function and suggest a USIB-controlled group as a possible alternative.

4. It is recommended that this study be placed on the agenda for discussion at a USIB meeting. It is a first of a kind, it raises questions about the present organizational structure designed to handle the narcotics intelligence problem, and it is of particular interest to Treasury.

5. If you approve, [REDACTED] will circulate the attachment and schedule it on a USIB agenda for Board consideration at an early date.
