

15 January 1983

25X1

MEMORANDUM FOR:
FROM: DCI
SUBJECT: Worldwide Briefing

I would like the following visuals:

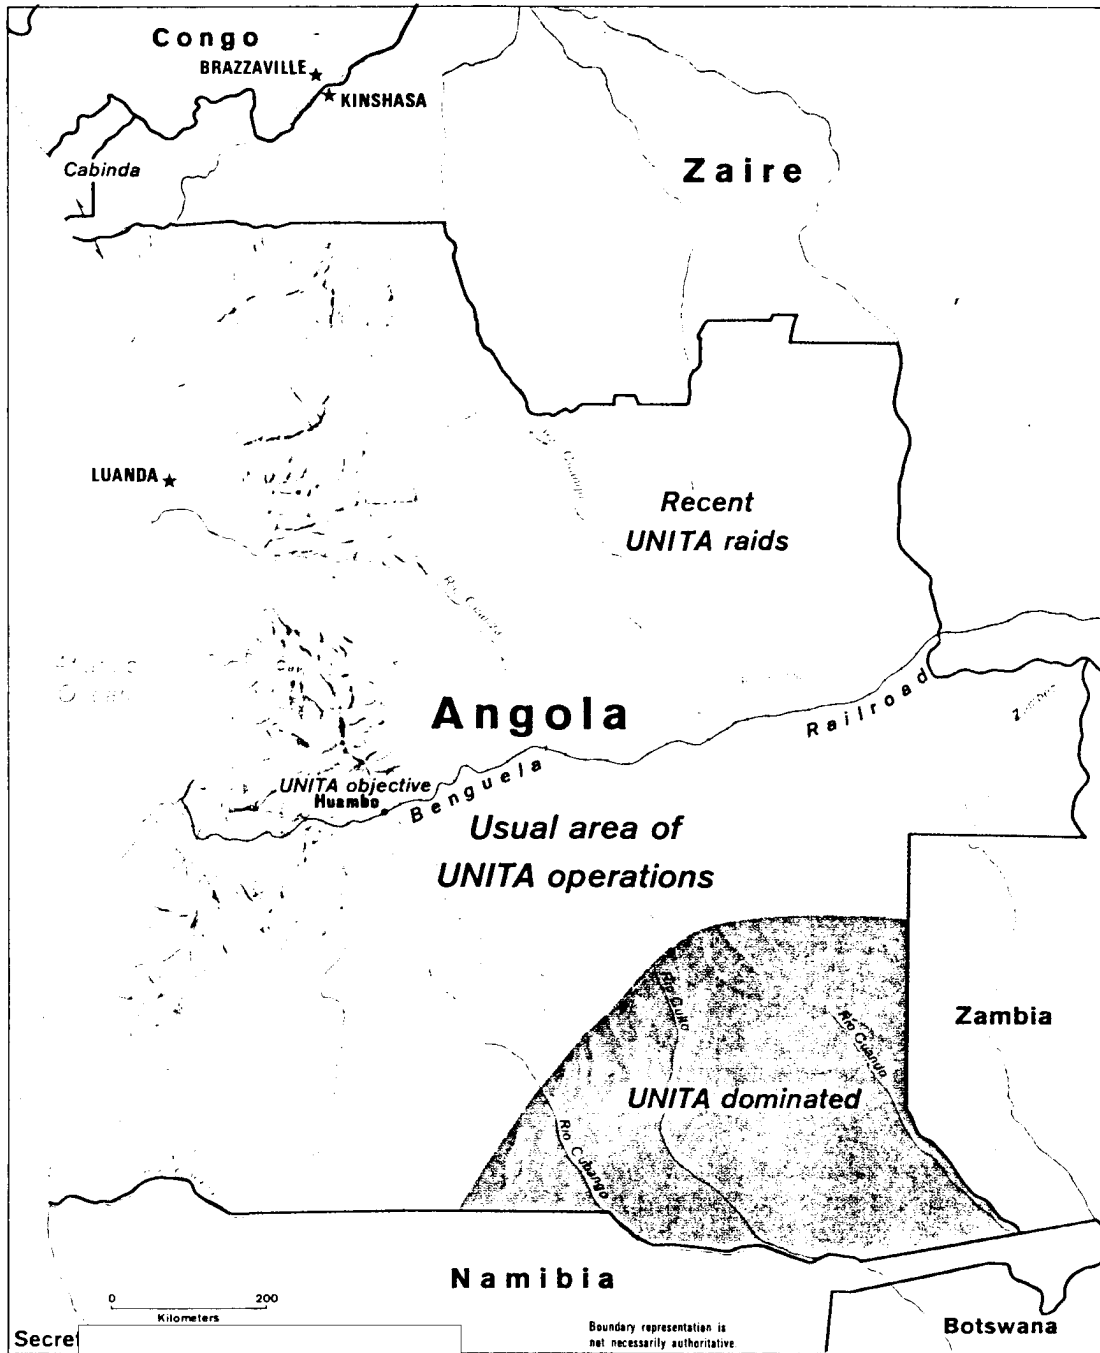

1. Map running from Baghdad to Islamabad, and from the northern border of Iran to the Straits of Hormuz, including Saudi oil fields and Baluchistan harbor, showing Soviet forces on northern border of Iran, attack routes through the mountains, forces down to Iranian and Saudi oil fields, forces deployed on Iraq/Iran border, air fields in western Afghanistan, communication routes in Russian-held territory in Afghanistan. We will have to determine whether this needs three maps or whether it could all be reflected on one map.
2. Map showing forces on Soviet/Chinese border and on Vietnam/Kampuchea/Thailand border. Again, this may take two maps to be meaningful.
3. Southern Africa showing Southern Africans deployed in Namibia, Savimbi land as attached, pipeline from Mozambique to Zimbabwe, South African strikes into Zimbabwe.
4. North Africa with Libyan arms stockpiles, area threatened in Northern Chad, Polisario and Moroccan position in Western Sahara. We would want to show Benin and Central African Republic as a base for incursions into Southern Chad.
5. Map of the Horn of Africa showing South Yemen and North Yemen and insurgent-held territory in North Yemen, contested areas in Ethiopia, Cuban locations and activity in the Ogaden area.
