National Intelligence Council

20 October 1983

MEMORANDUM FOR: Acting Director of Central Intelligence
THROUGH : Chairman, National Intelligence Council
FROM : Julian C. Nall
National Intelligence Officer for Science & Technology
SUBJECT : STIC-HUMINT Committee Report: The Processing of Overtly
Collected Scientific and Technical Intelligence Information

1. Action requested: See paragraph 3.

2. Background: The STIC and HUMINT Committee have recently published a report on "The Processing of Overtly Collected Scientific and Technical Intelligence Information" (copy attached). This report was initiated as a logical follow on to an earlier STIC report on the "Overt Collection of S&T Intelligence." In my opinion this recently completed report is a valuable contribution to the Intelligence Community in its critical role of assessing foreign sciences and technologies to prevent technological surprise. I concur in principle with the recommendations.

3. Requested action: Based on the recommendations of the report, I believe that the following actions should take place immediately:

a. Your approval of the concept of significantly improving the processing of overtly collected S&T intelligence information for the Intelligence Community.

Yes

b. Your appointment of a senior steering group which in concert with an action group will:

1) Determine the existing facilities, both private and government, which now provide machine or human translation of foreign S&T intelligence, [redacted]

Yes

[redacted]

2) Determine the existing automated data bases which contain significant components of foreign S&T information.

3) Define the scope of activities and prepare a cost estimate for an Intelligence Community organization to begin exploitation and pre-analysis of overt S&T information.

4) Establish a time table for actions.

Members of the senior steering group should be persons such as: Executive Director of CIA, senior official of DoD, Chairman of the HUMINT Committee, Chairman of STIC, and NIO/S&T.
