9. A special meeting was arranged this past week to discuss minority recruitment with Councilman Richard Alatorre, who represents the 14th District of Los Angeles. The Office of Personnel (OP) emphasized the importance of the Agency's minority recruitment effort in general and the Hispanic program in particular. After much dialogue and a visit to [redacted] and Headquarters facilities, OP was able to remove his initial suspicions, and he offered his assistance in our ongoing minority recruitment effort. The Councilman's initial suspicions, however, do highlight and bring vividly into focus the task we face in reaching and educating the minority population in the U.S.

10. As part of the preparation for internally administering a retirement system for all Agency employees, an OP/Retirement Division representative visited the National Personnel Records Center (NPRC) in St. Louis, Missouri. 11. The Stackig, Sanderson & White Advertising Agency has provided three proposed advertisements directed specifically at the legal, teaching and military professions. The ads are designed primarily to reach potential candidates for the DO direct hire program; but, hopefully, there will be considerable fall-out for the Career Training Program as well. The ads are well-written, and the first newspaper ad will appear in The Washington Post on 16 March. Ads also will be placed in professional journals as soon as publishing deadlines permit.

12. The recent addition of an extended dependent health insurance plan for children of Agency employees enrolled in the Association Benefit Plan (ABP) has been well received. Currently 54 children have been enrolled, and 32 additional applications have been mailed to interested parties. We anticipate this enrollment will be increased further during a special enrollment period between 1 April and 15 May, during which time children who became age 22 between 1 January 1984 and 30 September 1985 may also apply.
