OIT #1052-86

19 December 1986

MEMORANDUM FOR: Executive Assistant to the DDA

FROM: 25X1

Deputy Director for Information Technology

SUBJECT: Request for Support to OP/Employment

REFERENCE: Your note to D/OIT dated 1 Dec 86, same subject

1.   Reference requested OIT support to OP/Employment in connection with the model being developed by OD&E. In this connection, the following is submitted:

2.   OIT already has and will continue to supply information and assistance in making CAPS data available to OD&E. The contact for this assistance is   25X1

3.   OIT will identify someone to participate in the design review of the OD&E model. The contact for this support is   25X1
                                                                                        25X1

4.   It is inappropriate for OIT to assume maintenance responsibility for the OD&E developed model inasmuch as the Office was not involved in the systems analysis for the project nor the selection of tools and methodologies. My recommendation on maintenance is that OIT not be involved. However, this is a negotiable item and it may be just as useful to keep an open position and discuss this with OD&E as we go along and see how much work is really involved. Oftentimes it is better to have a pro-active stance on which we can always scale back if necessary.

25X1
