WASHINGTON, D.C. 20202

Executive Registry
86-2003X/1

07 AUG 1986

Dear Colleague:

The White House Initiative on Historically Black Colleges and Universities and the Office of Science and Technology Policy cordially invite you to attend the Science and Technology Conference which will be held at the National Academy of Sciences in Washington, D.C. on September 18-19, 1986. A program agenda is enclosed for your information.

The purpose of the conference is to demonstrate and expand historically Black colleges and universities' research programs in science and technology through alliances with the private sector and the Federal government. The theme of the conference is "HBCU Alliances with Frontier Sciences".

Key representatives of leading businesses, industries, and foundations involved in or interested in science and technology, as well as key top-level Federal agency personnel will be actively involved in the two-day conference.

A formal invitation has been forwarded to you. However, we would appreciate your completing the enclosed pre-registration form and returning it to my office no later than August 22, 1986.

I strongly urge your full participation in this conference and the timely submission of the enclosed pre-registration form.

Sincerely,

A handwritten signature in cursive script that reads "Margaret J. Seagears".

Dr. Robert Anderson
Chairman of the Board
and Chief Executive Officer
Rockwell International

4:00 PM - 5:00 PM RECEPTION AND AWARDS CEREMONY.....WHITE HOUSE
(BY INVITATION ONLY)

FACT SHEET

CONFERENCE DETAILS

TITLE : STUDENT AID PERSPECTIVES FOR HISTORICALLY
BLACK COLLEGES AND UNIVERSITIES

DATE : September 17, 1986
12:30 - 5:00 PM

SITE : The Capitol, Washington D.C.
(Exact room to be determined)

Sponsored by:

The Honorable Mack Mattingly, Senator from Georgia,
in conjunction with the U.S. Department of Education's
Office of Student Financial Assistance -
Dr. Dewey L. Newman, Deputy Assistant Secretary

CONFERENCE PURPOSE

To assist the Historically Black College and
University Presidents and Chancellors in
identifying points of progress and concern in
their own student aid offices and to suggest
methods to improve upon the delivery and scope of
student benefits at their institutions.

WHY?

The welfare of Historically Black Colleges and
Universities in this nation is of great concern to this
Administration, and to many Members of Congress. These
institutions play an important role in history and the
President has pledged his support to help these
institutions continue to thrive. Student Financial
Assistance plays a large role in the overall
institutional profiles. The HBCU presidents'
understanding of this role is key to the success of each
institution.

Many such presidents and chancellors will be attending the "Historically Black Colleges and Universities Alliances with Frontier Sciences" Conference September 18-19 in Washington, D.C. This conference, sponsored by the White House Office of Science and Technology and the White House Initiative on Historically Black Colleges and Universities, is dedicated to demonstrating and expanding HBCU research programs in science and technology through alliances with the private sector and the Federal government.

This conference affords a unique opportunity to address the critical aspects of student financial assistance with the individuals it concerns the most. The fact that most of the HBCU leaders will be in Washington for the main event assures that they may attend with little or no cost to them or their institutions, save for the time involved.
