MEMORANDUM FOR THE RECORD

SUBJECT: The Office of Security FY 1986 First Quarterly Review

25X1 1. The Office of Security FY 1986 First Quarterly Review was held on 10 February 1986 at 1400 hours. [redacted] began the session with some remarks concerning the agenda and the Office of Security (OS) population.

25X1 2. Next, [redacted] spoke about the Area Security Officer Program. He defined the future goals of the program and he stated that OS
25X1 intended to put Generalist Officers [redacted]. He
25X1 also discussed the planned increase in technical officers to all regional
25X1 staffs, and the planned increase in polygraphers to [redacted]
25X1 Staff. [redacted] then outlined the [redacted] mission, which
25X1 includes: background investigations, operational support [redacted]
[redacted], liaison, and security support to the
25X1 DCI/DDCI. In addition, he provided an explanation of the current and
25X1 projected investigative workload, [redacted]
mission.

25X1 3. [redacted] then presented a Polygraph Program Update. He
25X1 stated that there were [redacted] polygraph examiners on line as of January 1986, and
25X1 that he expects to have [redacted] by January 1987. He explained that this number
25X1 could probably satisfy customer demands. [redacted] also provided a
breakdown of polygraph requests by type (i.e., staff and staff-like,
industrial, operational).

25X1 4. At this point, [redacted] provided a Security Protective
Service Update. He stated that since February 1984, OS has lost 29.6 per cent
25X1 of its EOD Security Protective Officers (SPOs). To halt this trend, the
25X1 division is considering an extension of the minimum tour and rewards for
25X1 experienced SPOs. [redacted] also addressed the specific requirements of each
agency outbuilding, as well as those of the new headquarters facility. Then
he spoke about the possible transfer of GSA protective slots to the Agency.
Before concluding this segment of the session, [redacted] briefed attendees on
the Security Escort Program. He provided background and discussed scheduling
difficulties and other problems facing the program.

25X1 6. The session was then adjourned by [redacted]
