~~CONFIDENTIAL~~

10 January 1984

MEMORANDUM FOR: 25X1
VIA: Director of Training and Education
FROM: 25X1
Chief, Plans Group, OTE
SUBJECT: Proposed Joint OTE/ORD New Initiative

1. After careful consideration, it has been decided that the proposed initiative entitled "Language School Upgrade" should be an Office of Training and Education (OTE) submission rather than a joint OTE/ORD (Office of Research and Development) new initiative. This decision was based upon several factors:

a. The proposed initiative is primarily concerned with implementing a Computer-Based Education (CBE) system utilizing existing technology. There is very little research incorporated into the package and, thus, seems to lie within the realm of OTE's programming responsibility.

b. By FY 1986, OTE hopes to be in the position of applying CBE to a variety of its programs, no longer concentrating only on foreign language training, which served as the CBE test bed for OTE. The proposed "Language School Upgrade" might prove to be counterproductive to OTE's stated long term goal of incorporating CBE into areas such as ADP and management skills training.

c. An Office-wide CBE group has been tasked with developing a long range, detailed plan which will outline the steps to be taken and the funding required for this project. The resulting information will be incorporated into a new initiative for OTE's FY 1986 program submission. 25X1

2. We look forward to working with ORD in the research and development areas of CBE. It is a rapidly changing field with constantly evolving new technologies and the impact of new developments upon the Agency must be determined. OTE will continue to rely on ORD in the future for its expertise in such

DDS&T-306-84

MEMORANDUM FOR: Deputy Director for Administration

FROM: R. E. Hineman
Deputy Director for Science and Technology

SUBJECT: FY 1986 R&D Planning Cycle [redacted] 25X1

REFERENCE: DDA memorandum for DDS&T,
Subject: FY 1986 R&D Planning Cycle,
dated 25 January 1984, DDA-84-0158/1

1. With my submission of the FY 1986 Program Call to the Comptroller's Office, the FY 1986 R&D planning cycle has now moved into the budget cycle. I want to provide you an update on what has happened to the FY 1986 R&D initiatives which you ranked and commented on last winter. [redacted] 25X1

2. This year the directorate has taken a thematic approach to its FY 1986 submission of new initiatives. We have done this for two reasons. First, is the emphasis we want to place on some important resource needs. Second, is the flexibility it gives in distributing the meager resources anticipated in the near future. [redacted] 25X1

3. I am pleased to report that of the four proposed R&D solutions you ranked, three were incorporated into the Enhanced Security R&D initiative. I have recommended to the Comptroller that this initiative be an interdirectorate Theme submittal. In the S&T directorate submittal, we ranked this Theme as number three out of ten. [redacted] 25X1

4. With your support during the formulation of the Agency's budget, we can ensure a strong R&D program which will address both our directorates' concerns. [redacted] 25X1

STAT

The Directorate Research and Development Panel discussed the R&D problem statement submitted by the Security Records Division. Based on our discussion and subsequent discussion with the ODP representative, we suggest that OS submit this requirement directly to ODP, perhaps as part of the SIMS project.
