Communist Economic Aid to Non-Communist LDCs, 1986

[Redacted]

25X1

Preface

Information available as of 30 April 1987 was used in this report.

This handbook is updated annually to provide data on Communist economic aid to less developed countries (LDCs) and has been coordinated within the Intelligence Community. Annual intelligence assessments on Communist-LDC economic aid are issued separately. The statistics in this handbook update and supersede those in our previous publications, which until 1985 also included data on military transfers. The data on arms transfers will be issued separately.

[Redacted]

25X1

The term *Communist countries* refers to the USSR, China, Bulgaria, Czechoslovakia, German Democratic Republic (GDR), Hungary, Poland, Romania, Cuba, North Korea, and Yugoslavia. For purposes of this report, the term *less developed countries* includes (1) all countries of Africa except the Republic of South Africa; (2) all countries of East Asia except Hong Kong and Japan; (3) Malta, Portugal, and Spain in Europe; (4) all countries in the Caribbean and Latin America except Cuba; and (5) all countries in the Middle East and South Asia, except Israel. Although Cambodia, Laos, and Vietnam have been Communist countries since 1975, data before this date are included here for historical purposes.

[Redacted]

25X1

Assistance is considered to have been extended when accords are initialed and constitute a formal declaration of intent. Economic aid includes grants and loans; credits with repayment terms of five years or more that fit international definitions of concessional aid because of low interest rates or other soft terms are included. They are designated as "trade credits" if amortization is less than 10 years. The terms *drawings*, *deliveries*, and *disbursements* refer to the delivery of goods or the use of services.

[Redacted]

25X1

As to individual table entries, the term *NEGL* refers to a value of less than \$500,000; *NA* indicates an agreement was signed, but the value was not known; two dots (. .) indicate we have no information and presume the value is zero.

NOTE: Credits on which repayment terms are known to be less concessionary than those normally associated with aid (25 percent grant element) have been designated as trade credits. We have included in this category those credits repayable in a minimum of five years (which do not meet the aid criteria) and are clearly designed to promote trade.

* Symbols used in Table 11 have the following meanings: S - under survey, UC - under construction or being implemented, CS - construction suspended, and C - completed.

This aid comes under framework agreements which call for long-term economic cooperation without identifying specific projects or the value of assistance to be provided. With few exceptions, these agreements appear to be open-ended. As credits are assigned to specific projects under the framework agreements, they will be listed separately by date and will be identified with a double asterisk () preceding the entry.

(A) The amount extended reflects an adjustment for downpayments.

(B) The amount extended is estimated.

(C) The amount extended is not known.

NOTE: Credits on which repayment terms are known to be less concessionary than those normally associated with aid (25 percent grant element) have been designated as trade credits. We have included in this category those credits repayable in a minimum of five years (which do not meet the aid criteria) and are clearly designed to promote trade.

* Symbols used in Table 12 have the following meanings: S - under survey, UC - under construction or being implemented, CS - construction suspended, and C - completed.

This aid comes under framework agreements which call for long-term economic cooperation without identifying specific projects or the value of assistance to be provided. With few exceptions, these agreements appear to be open-ended. As credits are assigned to specific projects under the framework agreements, they will be listed separately by date and will be identified with a double asterisk () preceding the entry.

Table 12
Sub-Saharan Africa: Communist Economic Credits and Grants
To Less Developed Countries by Date Extended, 1954-86

- (A) The amount extended is estimated.
- (B) The amount extended is not known.
- (C) The amount extended reflects an adjustment for downpayments.
- (D) A 1971 protocol to the June 1961 agreement turned \$13.8 million of the \$44.4 million project aid into a grant and \$1.3 million of a \$7.8 million commodity credit into a grant.
- (E) For Zanzibar only.
- (F) Includes \$2.2 million for state bank.
- (G) The agreement to extend credit for building the railroad was signed in September 1967, but the amount of the credit was not agreed to until July 1970 after surveys had been completed. Drawings on the credit are retroactive to 1968.

NOTE: Credits on which repayment terms are known to be less concessionary than those normally associated with aid (25 percent grant element) have been designated as trade credits. We have included in this category those credits repayable in a minimum of five years (which do not meet the aid criteria) and are clearly designed to promote trade.

* Symbols used in Table 13 have the following meanings: S - under survey, UC - under construction or being implemented, CS - construction suspended, C - completed, PC - project cancelled, and CC - construction completed by Less Developed Country or Western Country.

This aid comes under framework agreements which call for long-term economic cooperation without identifying specific projects or the value of assistance to be provided. With few exceptions, these agreements appear to be open-ended. As credits are assigned to specific projects under the framework agreements, they will be listed separately by date and will be identified by a double () preceding the entry.

Secret

25X1

Table 13
East Asia: Communist Economic Credits and Grants
to Less Developed Countries by Date Extended, 1954-86

- (A) The amount extended reflects an adjustment for downpayments.
- (B) Credit of \$84.0 million extended in 1961 reduced the level of drawings to reflect Burmese takeover following expulsion of Chinese in 1968. The undrawn portion was re-extended in 1971.
- (C) The credit of \$30.0 million extended in 1961, the credit of \$50.0 million, and the grant of \$16.0 million extended in September 1965 are reduced to the level of drawings at the time of the abortive coup in 1965 when the Chinese were expelled and their work on projects cancelled.
- (D) The 1956 credit and protocol of 1959 were reduced from \$100 million and \$5.6 million credits to amount drawn at the time the credits expired in 1964. The 1960 credit of \$210 million, reduced from the original \$350 million by transfer of \$40 million to the military account, also was reduced to reflect drawings at the time credit expired in 1967.
- (E) During 1975, Cambodia and Laos announced the formation of Communist governments and their relations with other Communist countries will not be detailed in this publication.
- (F) Includes only aid extended after formation of the Laos coalition government under the Geneva accord of July 1962. Undelivered commitments of \$2.2 million grant and \$3.9 million credits extended by the USSR in 1962 have been deleted. A line of credit for \$4.0 million extended by Communist China in 1962 but never drawn also has been deleted.
- (G) Minimum estimated value.
- (H) The amount extended is not known.

NOTE: Credits on which repayment terms are known to be less concessionary than those normally associated with aid (25 percent grant element) have been designated as trade credits. We have included in this category those credits repayable in a minimum of five years (which do not meet the aid criteria) and are clearly designed to promote trade.

* Symbols used in Table 15 have the following meanings: S - under survey, UC - under construction or being implemented, CS - construction suspended, C - completed, and SS - survey suspended.

This aid comes under framework agreements which call for long-term economic cooperation without identifying specific projects or the value of assistance to be provided. With few exceptions, these agreements appear to be open-ended. As credits are assigned to specific projects under the framework agreements, they will be listed separately by date and will be identified with a double asterisk () preceding the entry.

- (A) The amount extended reflects an adjustment for downpayments.
- (B) Credit is opened. Additional amounts will be added as contracts are signed.
- (C) Soviet credit extensions for the Salto Grande project are split 60 percent to Argentina and 40 percent to Uruguay and repayment responsibility is divided in this manner.
- (D) Minimum estimated value.
- (E) The amount extended is not known.

NOTE: Credits on which repayment terms are known to be less concessionary than those normally associated with aid (25 percent grant element) have been designated as trade credits. We have included in this category those credits repayable in a minimum of five years (which do not meet the aid criteria) and are clearly designed to promote trade.

* Symbols used in Table 16 have the following meanings: S - under survey, UC - under construction or being implemented, CS - construction suspended, and C - completed.

Secret

Table 16
Middle East: Communist Economic Credits and Grants
to Less Developed Countries by Date Extended, 1954-86

This aid comes under framework agreements which call for long-term economic cooperation without identifying specific projects or the value of assistance to be provided. With few exceptions, these agreements appear to be open-ended. As credits are assigned to specific projects under the framework agreements, they will be listed separately by date and will be identified with a double asterisk () preceding the entry.

- (A) The amount extended reflects an adjustment for downpayments.
- (B) In 1980 the 1964 credit was reduced to the level of drawings, and the credit, originally denominated in Swiss francs, was reinstated at the new dollar-frank rate.
- (C) Credit originally for \$225.0 million reduced by \$9.0 million, the amount saved during construction.
- (D) Includes \$44.4 million of credits originally extended in 1963, but incorporated in the line of credit in 1964.
- (E) Minimum estimated value.
- (F) The amount extended is not known.
- (G) Credit, originally for \$84.0 million, was for delivery of 33 ships; it was reduced to the amount delivered by 1969 because the contract was believed to have been cancelled. This amount reflects an adjustment for down payment.
- (H) A \$20 million agreement signed in 1972 is believed to include a \$10 million credit extended in 1967 for similar projects.
- (I) Subsumed \$5.5 million credit extended in 1969.
- (J) Extended to replace \$25 million 1969 credit that expired in 1975.
- (K) Extended to replace \$15 million 1962 credit that expired in 1964.
- (L) Value of individual projects will be determined by separate agreements.

NOTE: Credits on which repayment terms are known to be less concessionary than those normally associated with aid (25 percent grant element) have been designated as trade credits. We have included in this category those credits repayable in a minimum of five years (which do not meet the aid criteria) and are clearly designed to promote trade.

* Symbols used in Table 17 have the following meanings: S - under survey, UC - under construction or being implemented, CS - construction suspended, and C - completed.

Secret

Table 17
South Asia: Communist Economic Credits and Grants
to Less Developed Countries by Date Extended, 1954-86

- (A) The amount extended reflects an adjustment for downpayments.
- (B) Minimum estimated value.
- (C) The amount extended is not known.
- (D) Credits extended to Pakistan prior to December 1961 known to have been designated for use in the Eastern sector have been deducted from amounts originally extended to Pakistan and reallocated to Bangladesh.
- (E) Original credit of \$12.0 million was cancelled December 1975, and reduced to level of drawings.
- (F) These credits previously extended to Pakistan; reinstated in 1972.
- (G) Credit expired on 31 March 1972, reduced from original \$84 million to \$66.7 million, the amount obligated by that date.
- (H) The value has been reduced to the level of drawings.
- (I) Converted from credits to grants in 1972.
- (J) Includes \$44 million of unused credits provided in 1966.

NOTE: Credits on which repayment terms are known to be less concessionary than those normally associated with aid (25 percent grant element) have been designated as trade credits. We have included in this category those credits repayable in a minimum of five years (which do not meet the aid criteria) and are clearly designed grants to promote trade.

* Symbols used in Table 18 have the following meanings: S - under survey, UC - under construction or being implemented, CS - construction suspended, and C - completed.

(A) The amount extended is estimated.

(B) The amount extended is not known.

(C) The amount is negl.
