SECOLI

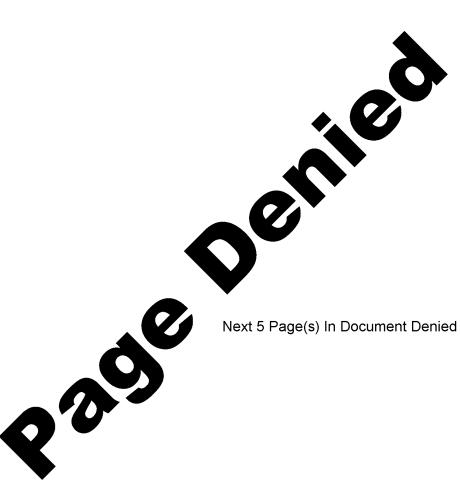

25X1 o The first "Excellence" film was seen by a wide range of Agency employees. Critiques from the audiences noted they wanted to see more stories about human achievements in the Agency. put together a group to interview 25X1 and film a wide range of Agency employees who have stories of "Excellence" to tell. The "Son of Excellence" film should be available for distribution in early 1985. Some of the above items involved removal of long-standing impediments to creativity. These items, combined with the broad range of the other accomplishments which are indicated in the attached, demonstrate our upbeat, energetic, and productive Excellence Program It is a living program that will have pay-off long into 25X1 the future. 25X1 Attachments 25X1
