[Redacted]

As requested in [Redacted] August 5th letter to the Association, I am enclosing the copies of the Master Plan and Environmental Assessment which were loaned to us for use in preparing for our interview with your Selection Committee.

As I had mentioned to you in a subsequent telephone conversation, we were naturally disappointed that we were not selected to undertake this most challenging assignment; however, we know that the Agency was faced with a difficult decision in choosing between the three short-listed teams. We wish you all success in carrying your plans forward for this most needed facility.

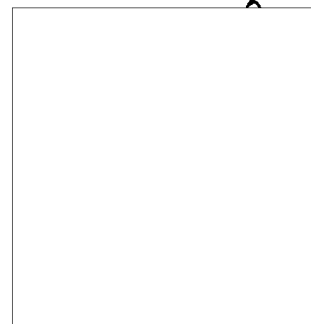

I hope that you will continue to keep Dewberry & Davis in mind for any future assignments at the Langley headquarters facility and in other locations where A/E services may be required. We have enjoyed previous opportunities to work for the CIA and look forward to continuing to serve you in the future.

Very truly yours,

Robert T. Skunda, AICP
Associate
