

THE ASSOCIATION OF
VVKR INCORPORATED • DEWBERRY & DAVIS • EVERETT I. BROWN COMPANY

April 12, 1982

Agency Evaluation Board
Central Intelligence Agency
Washington, D. C. 20505

Attention:
Secretary

STAT

Dear and Members of the Evaluation Board:

STAT

We are most pleased that you have taken the time to visit our offices this afternoon, so that we can confirm both our sincere interest and ability to undertake the design of the new Central Intelligence Agency facilities at the Langley Headquarters site.

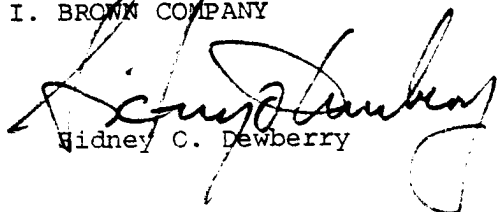

We have stressed since our first submittal on February 26, 1982 the importance of this job to the Association of VVKR, Dewberry & Davis and Everett I. Brown Company. To demonstrate this we, the members of the Executive Committee of the Association, are fully prepared to commit that the senior managing principal from each of our three firms will have an active and direct role in this project throughout the design and construction phases. We fully intend that the Executive Committee will function as both a technical and design review board and will become a strengthening element of our project management team.

Both VVKR and Dewberry & Davis have practiced in the local Northern Virginia community for 26 years, and have had the pleasure of serving the CIA on previous occasions. We would welcome the challenge of designing your new facilities and assure each of the Evaluation Board that they will be highly satisfied with the services of this Association both during and long after our contractual services have been completed.

Sincerely,

THE ASSOCIATION OF
VVKR INCORPORATED • DEWBERRY & DAVIS • EVERETT I. BROWN COMPANY
