

MAR 1 1982

Mr. James H. McDonald  
Director of Logistics  
Central Intelligence Agency  
Washington, DC 20505

Dear Mr. McDonald:

This is in response to your letter of February 5, 1982, requesting that I appoint a representative from my professional staff to participate on the Architect-Engineering Evaluation Board for your proposed headquarters building extension.

I recognize the significance of this major project and appreciate the opportunity to provide assistance to your agency in the selection process.

Mr. Claude G. Bernier, who is currently Deputy Director, Design and Construction Division, has been asked to represent the National Capital Region. Mr. Bernier has had extensive experience in administering A-E design contracts and should be an asset on this project.

Should your Chairman, Mr. King, desire to contact Mr. Bernier to discuss his background or review the schedule of this assignment, he can be reached on 202-472-4550.

Again, I am happy that we can assist you on this project and look forward to its successful completion.

Sincerely,

BERTRAND G. BERUBE  
Regional Administrator
