McLean, Virginia 22101

Dear Mrs. Falck:

Thank you for your letter of 12 July 1983 regarding our planning for CIA expansion.

We have appreciated your assistance in calling to our attention the concerns of the McLean citizens. It has been through the willingness of community leaders such as yourself to constructively criticize our planning that we have been able to respond to these concerns.

The traffic issue is the one remaining area where much remains to be done. As you understand, this is an area where the Agency is dependent upon state, county, and citizen support to achieve a solution. We believe that we are now on the right track and in a position to make rapid and meaningful progress. The assistance provided by Congressman Wolf and yourself in arranging for greater citizen participation is appreciated.

Sincerely,

Harry E. Fitzwater--
Deputy Director
