Reference: NCPC Memorandum of April 13, 1983, regarding NCPC File No. 1485,  
Central Intelligence Agency Headquarters Consolidation

Dear Mr. Chairman:

The Potomac School has been provided a copy of the referenced memorandum and appreciates the National Capital Planning Commission recognizing that the Central Intelligence Agency program might have an adverse off-site impact on The Potomac School and its constituency.

The Potomac School would like to express to you its deepest concern for the potential adverse effect of the additional traffic generated by the CIA expansion program. We understand that a road improvement plan is being prepared, but it is not yet completed and it is not available for review at this time.

It is requested that any approval granted by NCPC be subject to the requirement that appropriate and acceptable road improvements will be constructed before additional Central Intelligence Agency employees are brought on site. It is also requested that appropriate public hearings be scheduled regarding the acceptability of the road improvement plan that is currently being developed, and that The Potomac School be given the opportunity to review the final plan at least thirty days prior to such public hearing.

Thank you for your cooperation in this matter.

Sincerely,

[Signature box]
