MEMORANDUM FOR THE RECORD

SUBJECT: DI Space Modification in the New Headquarters Building (NHB)

1. After several discussions and calculations, it seems that the space designated for ASG would be more advantageous for MPSS, NAASW, and IPC. This space swap would not cause a construction impact and the square footage allocated to DI in the NHB would remain the same.

<u>Vacated from NHB</u>		<u>Added from NHB</u>	
ASG	12095	MPSS	7785
OSWR	1290	IPC	1000
	<u>13385</u>	NAASW	4600
			<u>13385</u>

2. The space vacated by MPSS and IPC from the OHB is approximately 8500 sq.ft. vice the 9700 sq.ft. that would have been made available by moving ASG. However, the 4600 sq.ft. that NAASW is now occupying at [redacted] is now planned for the NHB. This seems an apparent loss of sq.ft. by the DI but it is most likely countered by the expansion caused by splitting OCR.

<u>Vacated Before OCR Split</u>		<u>Proposed Vacated After OCR Split</u>	
ASG	9700	MPSS	7900
	<u>9700</u>	IPC	600
		NAASW	4600
		OIR/OLDA Expansion	(?)
		Probably Less Than	9700

3. NBPO is prepared to lay out the new office assignments with the respective offices upon approval of this concept.
