

SUBJECT: Meeting GSA/CIA Concerning 2430 E Street Complex

[Redacted]

STAT

4. Mr. King mentioned that he heard what was being said but having been a party to this same situation in the past and hearing the same promises he could not help but be skeptical. Much has been promised but payment of millions of dollars in Standard Level Users Charge (SLUC) has resulted in next to nothing to CIA in maintenance and capital improvements. This is particularly true at the 2430 E Street complex [Redacted]

[Redacted] Mr. King further stated that CIA is an overseas organization and therefore we are not anxious to get involved in O&M operations. However, we in Logistics have received great pressure from our own elements because GSA has been unwilling or unable to provide a suitable working environment. In view of this, we now must insist on a time table from GSA for correction of the problems or CIA will have to take over O&M of these areas.

5. Discussions continued concerning the assignment of a GSA person to 2430 E Street to assist residents with the O&M problems and Mr. Alderson agreed to pursue this matter and report back at a later date. The prospectus [Redacted] which has been turned down twice was addressed and Mr. Alderson also agreed to investigate this matter.
