Of Special Interest This Week

25X1 + A Soviet media analyst fielded a rush request from NSC's Carlucci, relayed by Eric Larson of the White House Situation Room, for material on Soviet commentary on Iran in recent months. She produced an annotated list of key commentaries, citing original and Daily Report sources (except for one item not published in the DR), and put this in a package together with copies of two Trends articles on the subject. The package was delivered to the White House.

25X1 + The FBIS remote system in San Salvador has been reinstalled in the Embassy and is once again operational after several months of downtime in the wake of the 10 October Salvadoran earthquake. The FBIS bureau in Panama is again able to remote tune and receive clear voice feeds for processing.
