FROM:

Robert M. Gates  
Deputy Director for Intelligence

SUBJECT:

Commendation for Selection into the Advanced  
Analyst Development Program

1. Congratulations on being selected as a participant in the 1984 Advanced Analyst Development Program. The Selection Committee and I both feel that completion of your project will enhance your skills as an analyst and contribute significantly to the Agency's understanding of the factors affecting debtor economic adjustment programs in lesser-developed countries. You should be aware that your proposal was one of the few endorsed by the Selection Committee, so you should take considerable pride in your selection.

2. I want to commend you on your selection for this prestigious program. Your proposal and selection are evidence of strong initiative, knowledge and skills, and of a commitment to excellence in intelligence. I wish you every success in your program and a rewarding career in the profession of intelligence.

SUBJECT:

Commendation for Selection into the Advanced Analyst Development Program

1. Congratulations on being selected as a participant in the 1984 Advanced Analyst Development Program. The Selection Committee and I both feel that completion of your project will enhance your skills as an analyst. We also believe it will contribute significantly to the Agency's understanding of the impact of countertrade of selected lesser-developed countries upon their trade performance and ability to service debts. You should be aware that your proposal was one of the few endorsed by the Selection Committee, so you should take considerable pride in your selection.

2. I want to commend you on your selection for this prestigious program. Your proposal and selection are evidence of strong initiative, knowledge and skills, and of a commitment to excellence in intelligence. I wish you every success in your program and a rewarding career in the profession of intelligence.

ROBERT M. GATES
