MEMORANDUM FOR: Deputy Director for Intelligence

FROM: Executive Assistant to the DDCI

At today's lunch with the Secretary of State, the DDCI learned that Deputy Secretary of State Dam will be leaving for Lima, La Paz, and Buenos Aires on 1 November. John promised that we would provide him any papers on the general situation in each area and an assessment of any threat to the government at that time. I realize State may have tasked your people separately through other channels and don't want to double task, but the DDCI would like to make sure that this information is provided to Dam's office. Please check with them to see when they would need it and let Stu know so that the DCI can mention it at the next State lunch.

Thank,
