JOINT MISSION COVERAGE SUMMARY

Mission B 4033
30 July 1957

COVERAGE AND QUALITY

Mission B 4033, flown 30 July 1957, covers the western, northern, and eastern shores of the Black Sea, and includes parts of Bulgaria, Rumania, and the USSR. The weather was good, but all photography was oblique and generally taken at considerable distance from the target. Images were, therefore, in most instances obscure and detailed interpretation was rendered difficult or impossible. A malfunction in right-hand exposures occurred early in the mission and continued to the end.

MAP REFERENCES

USAF World Aeronautical Charts, 1:1,000,000
249 Sea of Azov
250 Danube Delta
323 Marmara Sea
324 Black Sea -- East

NOTE:

The abbreviation ASSotW in the text stands for Airfields and Seaplane Stations of the World; ATMP refers to the US Target Complex Chart or to the US Target Mosaic for the area designated.
