WEEKLY ACTIVITIES & STATUS REPORT FOR THE DD/ICS--3 September 1986

25X1 Intelligence Support to SDI - [redacted]

- Drafting of a strawman version of the SDI study continues. About 50 pages of text and appendices, mostly dealing with collection, policy, and support to SDIO has been completed for Carlos' review. Subsequently, a firm date for a working group meeting to review the strawman will be established. In the meantime, Carlos has met with the Energy member of the working group to consider what compartmented information we may need from DOE. Rich has asked the DIA member to expedite his meeting with DoD principals for their input to the study.
- Carlos believes he has largely extricated himself from his OSWR administrative responsibilities and will be able to devote much more of his time to the CIPC study.

25X1 [redacted]

25X1 CSEM - [redacted]

- [redacted] worked on the CSEM software over the weekend, however, minor interface problems precluded completion of the software development. These problems should be resolved soon, and we can begin running illustrative management reports for your review.
