The Director of Central Intelligence
Washington, D.C 20505

Critical Intelligence Problems Committee

18 June 1986
DDW-171

WEEKLY ACTIVITIES & STATUS REPORT FOR THE DD/ICS--18 June 1986

CIPC Organizational Activities

- The agenda and background material for the 30 June CIPC meeting was forwarded to the members on 13 June. In addition to addressing the China Follow-up Report, the committee will be provided status reports on:
 - NFIP Support to Contingency Operations.

25X1

[redacted]

- Intelligence Support to SDI.

25X1

[redacted]

- Force Multiplier.

25X1

- [redacted] is convening the [redacted] System Working Group on 25 June. This primary agenda item will be the TOR.

25X1

- [redacted] reports that the Narcotics Collection Strategy Report on [redacted] will be completed in two-three weeks. I informed George that it was important that he maintain this schedule so we could table it at a July CIPC meeting.

25X1

● Personnel:

25X1

- I received word on 17 June that Agency security had "disqualified" [redacted] for employment. Agency military personnel will advise DIA and Air Force.

25X1

- The CT Program coordinator informed me on 16 June that [redacted] (DO/CT) would be assigned to us during the period 30 June-8 August. You will recall that John is scheduled to go to [redacted] subsequent to his tour with us and language training.

25X1

25X1

- [redacted] is scheduled to meet with you on 1 July at 1530 hours. You have a copy of her resume and writing samples. I have also provided a copy to [redacted] DCI Personnel. They are very interested in her if we elect not to exercise first option.

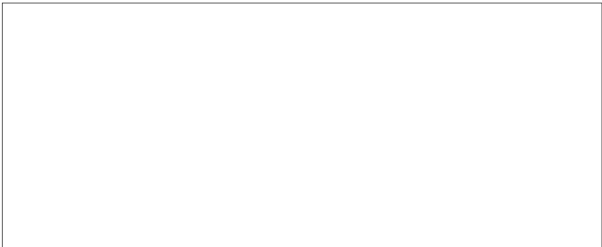

25X1

NFIP Support for Contingency Operations [redacted]

25X1

- The working group met on 17 June at the Chamber of Commerce building to see a demonstration of CIA's third world information system and related

WEEKLY ACTIVITIES & STATUS REPORT FOR THE DD/ICS--11 June 1986

25X1 projects. Last week, a new study outline, which focused on key issues and related problem areas, and a request for inputs were handed out to the working group members. [redacted]

- 25X1 ● The working group's Chairman has forwarded a memorandum to the Chairman, CIPC via the VC/CIPC and ES/CIPC that provides the reasons the working group will need another month to complete its study. [redacted]

- 25X1 ● For most of this week Paul will be on TDY taking part in an exercise. He will return to duty on 23 June. [redacted]

25X1 Intelligence Support to SDI - [redacted]

- 25X1 ● The next SDI Working Group meeting is scheduled for 24 June. George [redacted] has provided Rich a summary, in outline form, of the Community responses to the D/ICS request of 18 April.
- 25X1 ● This outline will provide Carlos enough information to be able to complete the tasking of the working group members for additional inputs by next working group meeting. Rich's impression is that, because of the lateness and lack of quality of these inputs, our data-gathering phase cannot be completed until late July. [redacted]

- 25X1 ● Rich has had useful discussions with [redacted] who is keeping us informed of STAP involvement with SDI, and with [redacted] who will be following our efforts insofar as they are of interest to the IP&DC. Rich is also in the process of making contact with SAFSS to invite them to provide an input to our study. [redacted]

25X1 Force Multiplier - [redacted]

- 25X1 ● The Force Multiplier Working Group met on 10 June and received two briefings, one on the NFIP and the other on the multiplier concept. In addition the working group continued its discussions of the TOR and methodology. Tony also met separately with the CIA member, [redacted] to discuss CIA's potential contributions.

25X1 CSEM - [redacted]

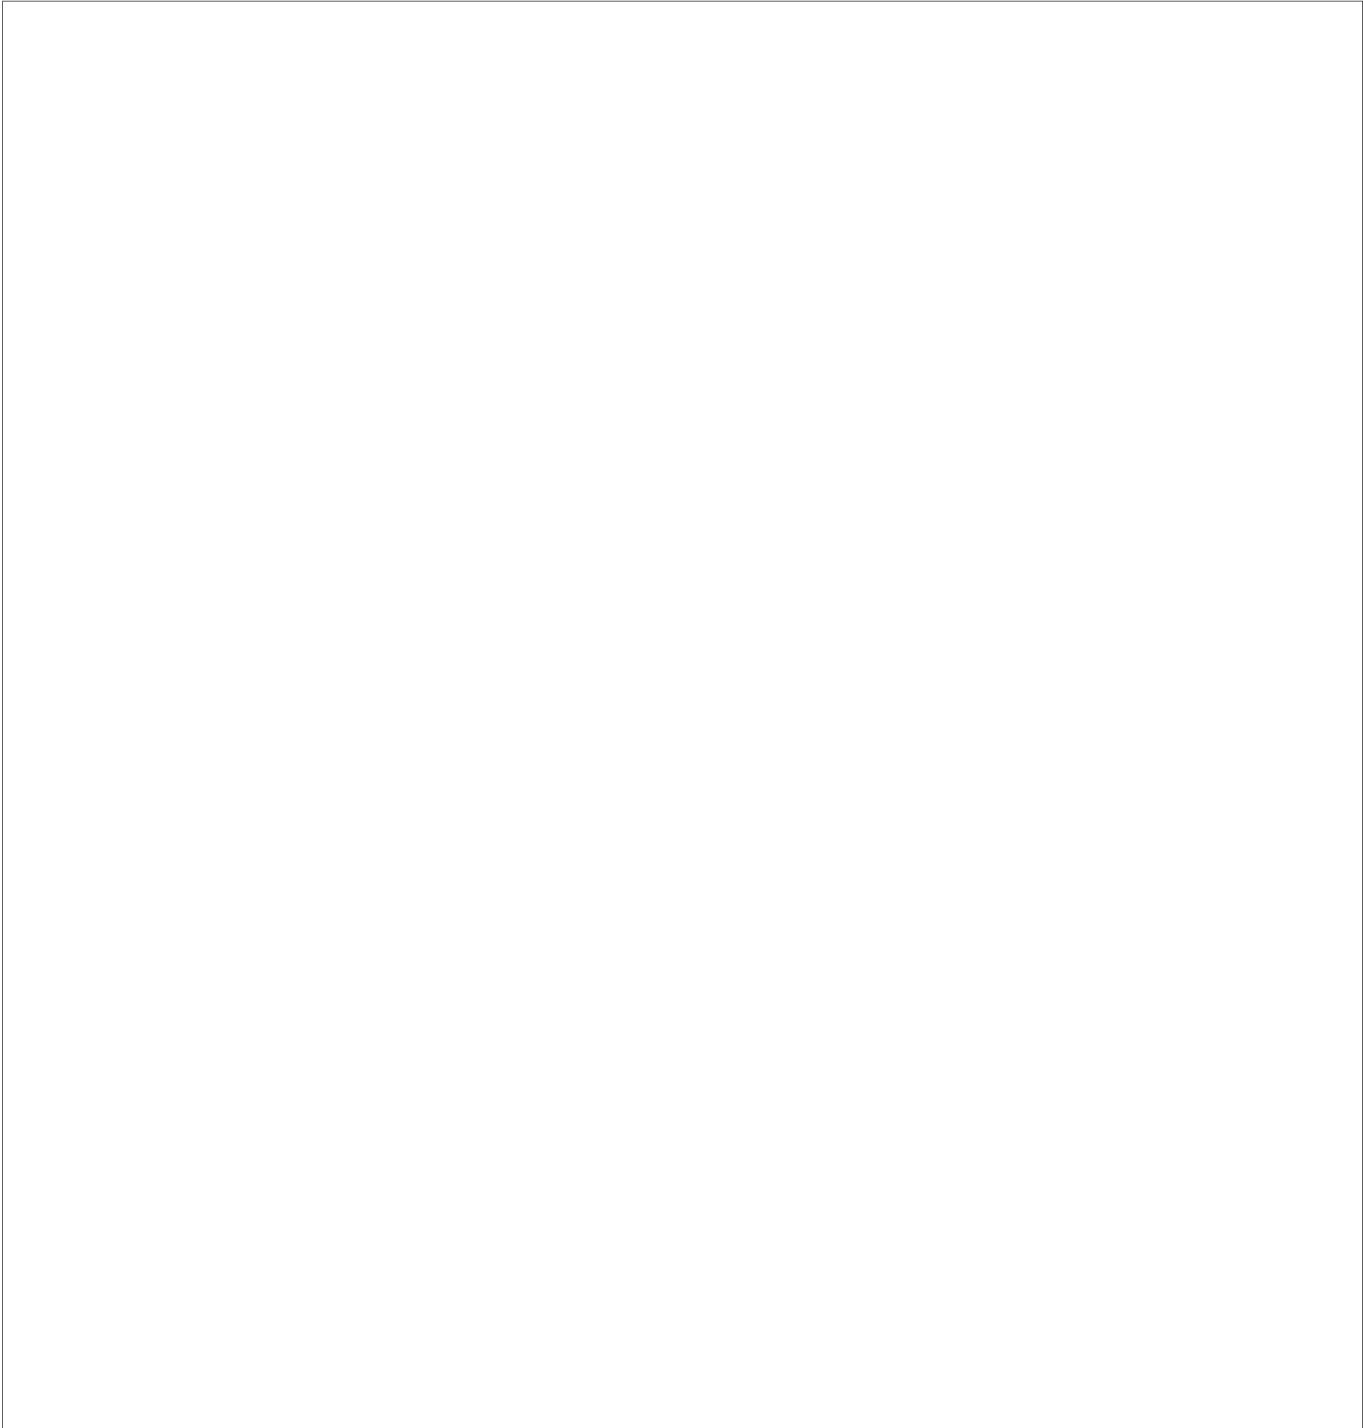

- 25X1 ● Programming of the basic models is essentially complete. Testing, and de-bugging are under way. Arrangements for accessing the existing FIRF data base are also complete and these data will be available to us shortly.

WEEKLY ACTIVITIES & STATUS REPORT FOR THE DD/ICS--11 June 1986

- We are now entering a period where we will start generating various reports and assessing their utility for senior management. We are getting close to the point where we will be able to determine the overall value of CSEM, and where we go from here.
