{ REPORT  
No. 97-410

MAKING APPROPRIATIONS FOR THE DEPARTMENT OF DE-  
FENSE FOR THE FISCAL YEAR ENDING SEPTEMBER 30,  
1982, AND FOR OTHER PURPOSES

DECEMBER 15, 1981.—Ordered to be printed

Mr. ADDABBO, from the committee of conference,  
submitted the following

CONFERENCE REPORT

[To accompany H.R. 4995]

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 4995) "making appropriations for the Department of Defense for the fiscal year ending September 30, 1982, and for other purposes," having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its amendments numbered 19, 25, 29, 35, 37, 45, 46, 47, 49, 50, 52, 53, 56, 58, 59, 60, 63, 74, 83, 86, 88, 90, 91, 92, 99, 104, 105, 106, 114, and 119.

That the House recede from its disagreement to the amendments of the Senate numbered 17, 18, 33, 48, 70, 81, 82, 94, 100, 103, 108, and 111, and agree to the same.

Amendment No. 1:

That the House recede from its disagreement to the amendment of the Senate numbered 1, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$12,447,827,000; and the Senate agree to the same.

Amendment No. 2:

That the House recede from its disagreement to the amendment of the Senate numbered 2, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$9,117,956,000; and the Senate agree to the same.

Amendment No. 3:

That the House recede from its disagreement to the amendment of the Senate numbered 3, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$2,766,966,000*; and the Senate agree to the same.

Amendment No. 4:

That the House recede from its disagreement to the amendment of the Senate numbered 4, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$10,305,414,000*; and the Senate agree to the same.

Amendment No. 5:

That the House recede from its disagreement to the amendment of the Senate numbered 5, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$964,400,000*; and the Senate agree to the same.

Amendment No. 6:

That the House recede from its disagreement to the amendment of the Senate numbered 6, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$346,770,000*; and the Senate agree to the same.

Amendment No. 7:

That the House recede from its disagreement to the amendment of the Senate numbered 7, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$138,720,000*; and the Senate agree to the same.

Amendment No. 8:

That the House recede from its disagreement to the amendment of the Senate numbered 8, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$292,073,000*; and the Senate agree to the same.

Amendment No. 9:

That the House recede from its disagreement to the amendment of the Senate numbered 9, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$1,294,100,000*; and the Senate agree to the same.

Amendment No. 10:

That the House recede from its disagreement to the amendment of the Senate numbered 10, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$423,867,000*; and the Senate agree to the same.

Amendment No. 11:

That the House recede from its disagreement to the amendment of the Senate numbered 11, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$14,938,315,000*; and the Senate agree to the same.

Amendment No. 12:

That the House recede from its disagreement to the amendment of the Senate numbered 12, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$15,037,897,000*; and the Senate agree to the same.

Amendment No. 13:

That the House recede from its disagreement to the amendment of the Senate numbered 13, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$944,600,000*; and the Senate agree to the same.

Amendment No. 14:

That the House recede from its disagreement to the amendment of the Senate numbered 14, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$176,300,000*; and the Senate agree to the same.

Amendment No. 15:

That the House recede from its disagreement to the amendment of the Senate numbered 15, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$19,385,889,000*; and the Senate agree to the same.

Amendment No. 16:

That the House recede from its disagreement to the amendment of the Senate numbered 16, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$685,000,000*; and the Senate agree to the same.

Amendment No. 20:

That the House recede from its disagreement to the amendment of the Senate numbered 20, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$9,435,000*; and the Senate agree to the same.

Amendment No. 21:

That the House recede from its disagreement to the amendment of the Senate numbered 21, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$1,185,540,000*; and the Senate agree to the same.

Amendment No. 22:

That the House recede from its disagreement to the amendment of the Senate numbered 22, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert *\$16,079,719,000, of which not less than \$29,000,000 shall be available only for the installation of modification kits into KC-135 aircraft*; and the Senate agree to the same.

Amendment No. 23:

That the House recede from its disagreement to the amendment of the Senate numbered 23, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert: *\$78,800,000*; and the Senate agree to the same.

Amendment No. 26:

That the House recede from its disagreement to the amendment of the Senate numbered 26, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$69,000,000; and the Senate agree to the same.

Amendment No. 27:

That the House recede from its disagreement to the amendment of the Senate numbered 27, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$658,150,000; and the Senate agree to the same.

Amendment No. 28:

That the House recede from its disagreement to the amendment of the Senate numbered 28, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$570,940,000; and the Senate agree to the same.

Amendment No. 30:

That the House recede from its disagreement to the amendment of the Senate numbered 30, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$669,154,000; and the Senate agree to the same.

Amendment No. 32:

That the House recede from its disagreement to the amendment of the Senate numbered 32, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$1,646,418,000; and the Senate agree to the same.

Amendment No. 38:

That the House recede from its disagreement to the amendment of the Senate numbered 38, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *\$3,825,200,000, of which \$1,900,000 shall be available only for the continued testing and evaluation of 9 mm handguns without delay*; and the Senate agree to the same.

Amendment No. 42:

That the House recede from its disagreement to the amendment of the Senate numbered 42, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$9,115,800,000; and the Senate agree to the same.

Amendment No. 43:

That the House recede from its disagreement to the amendment of the Senate numbered 43, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$3,207,100,000; and the Senate agree to the same.

Amendment No. 44:

That the House recede from its disagreement to the amendment of the Senate numbered 44, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$315,600,000*; and the Senate agree to the same.

Amendment No. 51:

That the House recede from its disagreement to the amendment of the Senate numbered 51, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$307,600,000*; and the Senate agree to the same.

Amendment No. 61:

That the House recede from its disagreement to the amendment of the Senate numbered 61, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$8,821,400,000*; and the Senate agree to the same.

Amendment No. 65:

That the House recede from its disagreement to the amendment of the Senate numbered 65, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$3,708,777,000*; and the Senate agree to the same.

Amendment No. 66:

That the House recede from its disagreement to the amendment of the Senate numbered 66, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$1,711,456,000*; and the Senate agree to the same.

Amendment No. 69:

That the House recede from its disagreement to the amendment of the Senate numbered 69, and agree to the same with an amendment, as follows:

Restore the matter stricken by said amendment, amended to read as follows:

In lieu of the sum named in said amendment insert *\$56,000,000*; and the Senate agree to the same.

Amendment No. 73:

That the House recede from its disagreement to the amendment of the Senate numbered 73, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$5,365,633,000*; and the Senate agree to the same.

Amendment No. 75:

That the House recede from its disagreement to the amendment of the Senate numbered 75, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$3,609,535,000*; and the Senate agree to the same.

Amendment No. 76:

That the House recede from its disagreement to the amendment of the Senate numbered 76, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$5,844,357,000*; and the Senate agree to the same.

Amendment No. 77:

That the House recede from its disagreement to the amendment of the Senate numbered 77, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$8,659,610,000; and the Senate agree to the same.

Amendment No. 79:

That the House recede from its disagreement to the amendment of the Senate numbered 79, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$1,692,646,000; and the Senate agree to the same.

Amendment No. 80:

That the House recede from its disagreement to the amendment of the Senate numbered 80, and agree to the same with an amendment, as follows:

Restore the matter stricken by said amendment, amended to read as follows: ; (m) for payment of unusual cost overruns incident to ship overhaul, maintenance, and repair for ships inducted into industrial fund activities or contracted for in prior fiscal years: Provided, That the Secretary of Defense shall notify the Congress promptly prior to obligation of any such payments; and (n) for payments from annual appropriations to industrial fund activities and/or under contract for changes in scope of ship overhaul, maintenance, and repair after expiration of such appropriations, for such work either inducted into the industrial fund activity or contracted for in that fiscal year; and the Senate agree to the same.

Amendment No. 95:

That the House recede from its disagreement to the amendment of the Senate numbered 95, and agree to the same with an amendment, as follows:

In lieu of the section number named in said amendment, insert 774; and the Senate agree to the same.

Amendment No. 97:

That the House recede from its disagreement to the amendment of the Senate numbered 97, and agree to the same with an amendment, as follows:

In lieu of the section number 775 named in said amendment, insert 776; and the Senate agree to the same.

Amendment No. 98:

That the House recede from its disagreement to the amendment of the Senate numbered 98, and agree to the same with an amendment, as follows:

In lieu of the section number named in said amendment, insert 777; and the Senate agree to the same.

Amendment No. 102:

That the House recede from its disagreement to the amendment of the Senate numbered 102, and agree to the same with an amendment, as follows:

In lieu of the section number named in said amendment, insert 779; and the Senate agree to the same.

Amendment No. 112:

That the House recede from its disagreement to the amendment of the Senate numbered 112, and agree to the same with an amendment, as follows:

In lieu of the section number named in said amendment, insert 785; and the Senate agree to the same.

Amendment No. 113:

That the House recede from its disagreement to the amendment of the Senate numbered 113, and agree to the same with an amendment, as follows:

Restore the matter stricken by said amendment, amended to read as follows:

*SEC. 786. None of the funds appropriated by this Act may be used to appoint or compensate more than 35 individuals in the Department of Defense in positions in the Executive Schedule (as provided in sections 5312-5316 of title 5, United States Code).*

And the Senate agree to the same.

Amendment No. 121:

That the House recede from its disagreement to the amendment of the Senate numbered 121, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$13,063,000; and the Senate agree to the same.

The committee of conference report in disagreement amendments numbered 24, 31, 34, 36, 39, 40, 41, 54, 55, 57, 62, 64, 67, 68, 71, 72, 78, 84, 85, 87, 89, 93, 96, 101, 107, 109, 110, 115, 116, 117, 118, and 120.

## JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The Managers on the Part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 4995), making appropriations for the Department of Defense for the fiscal year ending September 30, 1982, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the Managers and recommended in the accompanying conference report:

### TITLE I—MILITARY PERSONNEL

The following language items represent the agreement of the conferees. Specific dollar amounts by military service are reflected under each summary table. Language contained in the report of only one body and not addressed below should be considered the agreement of the conferees.

*New Bonus and Benefit Authorizations.*—The Uniformed Services Pay Act of 1981 included authorization for several new bonuses and benefits. Since some of these new payments are entitlements for which costs are already being incurred, the conferees have included funds for hazardous duty pay, aviation career incentive pay, submarine incentive pay, transportation of vehicles, and shipboard BAQ and VHA. Except as provided elsewhere in this report, no funds have been included for those several new non-entitlement bonuses and benefits which may be paid at the discretion of the Secretary of Defense. The conferees agree that the Department should submit a reprogramming or supplemental request to the Appropriations Committees for those discretionary authorities the Department wishes to exercise.

*Installment Reenlistment Bonus.*—The conferees agree reenlistment bonuses should be paid on a modified lump-sum installment basis. Up to 50 percent of the total bonus may be paid as the first installment with the remaining portion being paid in equal annual amounts over the rest of the reenlistment contract period.

*Compensation Drag-alongs.*—The longstanding link between basic pay and bonuses was established so that various ranks would be equally "drawn" to bonus awards. Because of this linkage, however, bonuses automatically increase with a pay raise, a promotion, or increased longevity. The Conferees are concerned that such discretionary pay increases are not actually necessary to meet program objectives. Although the Department reviews bonus multiplier levels so that retention requirements are met, these reviews do not always coincide with or even consider pay increases. Accordingly, the Conferees direct that the Department of Defense schedule reviews of bonus amounts to ensure that any downward revisions of bonus amounts which can be made as a result of pay raises become effective on the date of the pay raise. With regard to the

October 1, 1981, pay raise, it will be applied to only those bonuses which justifiably require an increase.

The Conferees likewise direct the Department of Defense to submit a report no later than May 1, 1982 which provides a thorough evaluation of possible modifications or alternatives to the present system for determining bonus awards. Possibilities such as the elimination of the direct link to basic pay, fixed sum amounts, and the use of fractional bonus multipliers should be considered to assure that bonus amounts reflect specific skill retention requirements rather than basic pay levels.

*Per Diem, Travel, and Transportation Allowance Committee.*—The Conferees agree that the current method of administering travel and transportation allowances permits decisions that are not fiscally sound. The Conferees also agree that the Department may continue to operate the Per Diem, Travel, and Transportation Allowance Committee, but must comply with the quarterly reporting requirement addressed by the House.

*Foreign Duty Pay.*—While acknowledging that foreign duty pay is an important element in compensating enlisted personnel for foreign assignments, the conferees agree that the Department of Defense should conduct a thorough review so that only truly arduous assignments will be eligible for such payments. The conferees also agree that any individual who is receiving foreign duty pay on January 1, 1982 shall continue to be eligible for such pay until reassigned out of that geographic area.

#### MILITARY PERSONNEL, ARMY

Amendment No. 1: Appropriates \$12,447,827,000 instead of \$12,288,300,000 as proposed by the House and \$14,095,781,000 as proposed by the Senate.

*Summary.*—Items for which the conferees have provided specific guidance have been addressed elsewhere. The agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Basic pay:.....	8,121,707	8,097,407	8,119,307	8,110,657

New bonus and benefit authorizations.....			(605)	

**TITLE II—RETIRED PAY, DEFENSE**

**Amendment No. 11:** Appropriates \$14,938,315,000 instead of \$14,931,815,000 as proposed by the House and \$14,944,815,000 as proposed by the Senate.

*Summary.*—The agreement on items in conference is as follows:

[In thousands dollars]

	Budget	House	Senate	Conference
Accounting waste, fraud, and abuse.....		(-13,000)		(-6,500)
Other adjustments.....		(-37,000)	(-37,000)	(-37,000)

### TITLE III—OPERATION AND MAINTENANCE

The following items addressed by the conferees apply to all operation and maintenance appropriations of the Department of Defense:

#### OPERATING APPROPRIATION REPROGRAMMING REQUIREMENTS

The conferees agree to accept the House Report language on non-programmatic reductions and reprogramming procedures. The appeals informally provided by the Military Departments indicate that there is some misunderstanding as to what is expected in complying with the House guidance. The conferees expect that each military service will provide the Committees, through Comptroller/budget channels a quarterly listing along with a short explanation of all transfers in excess of \$5.0 million to the aggregate program element listing contained in this report. This listing need not reflect actual accounting records, but only report budgetary changes made by or known to personnel in the various Military Service budget offices.

The first such report is due in conjunction with the submission of the fiscal year 1983 (March 1, 1982) budget and the next report three months later (June 1, September 1, and December 1) the reports will list changes in excess of \$5.0 million to both the fiscal year 1982 and fiscal year 1983 budgets. The usual reprogramming procedures for items of special interest and changes in budget activity levels remain in effect. This report of transfers and budget level changes will be of great assistance to the Committees in determining the most recent status of the programs prior to funding the next year's requirement and in insuring compliance with Congressional funding decisions.

#### CIVILIAN PERSONNEL CEILINGS

The conferees agree with the views expressed by the House Committee that the continued application of civilian personnel ceilings below the authorized level and 2 percent latitude serves as a deterrent to the effective and economical execution of Defense programs. If the civilian personnel levels were raised to the full authorized level, the Department of Defense could continue its programs with no increase in funding, yet decrease consulting contracts. Removal of the artificial ceiling constraints on civilian personnel hiring will help assure the orderly execution of the expanded program funded in fiscal year 1982. The conferees fully endorse the direction to eliminate personnel ceilings below the authorization. The conferees also support the House direction to exclude from all personnel ceilings, employees engaged in foreign military sales related activities.

#### FOREIGN MILITARY SALES

The conferees adopted the House position with respect to the need for (1) centralized accounting for foreign military sales, (2) the need to exclude from personnel ceilings employees who spend more than 50 percent of their time performing foreign military sales functions for which DOD is reimbursed by a foreign customer, (3) assign sufficient staff to the Security Assistance Accounting Center to insure that stock fund and secondary items are sold at prices

high enough to recover their replacement cost as required by law, and (4) report to the Appropriations Committees the reasons for and amounts waived for nonrecurring production or R.D.T. & E. costs on an FMS sale when DOD believes it is in the national interest to do so.

The conferees did agree to restore \$60 million of the House reduction because there is some concern that DOD may not be able to recover the entire reduction from foreign customers before the fiscal year ends due to already negotiated commitments.

WORLDWIDE MILITARY COMMAND AND CONTROL SYSTEM—AUTOMATIC DATA PROCESSING (WWMCCS-ADP)

The WWMCCS-ADP system currently consists of 35 medium-to-large computer systems and remote processors and/or terminals. The role of this system includes providing information necessary for planning, decisionmaking, and force deployment and employment. A total of \$196,393,000 is requested in fiscal year 1982 for this program.

The conferees note that O. & M. costs for this system are projected to grow from a level of \$66,873,000 in fiscal year 1980 to \$120,062,000 in fiscal year 1983. This large cost growth is occurring despite only marginal operating improvements and few significant equipment changes during this period. The General Accounting Office has raised serious reservations about many aspects of the WWMCCS-ADP system in various reports over the years. In the most recent GAO report (MASAD-82-2) the GAO questioned DOD's entire approach for improving and updating the current ADP system.

The conferees note that recently, a new Joint Program Manager (JPM) office has been set up in the Air Force for the WWMCCS information system program. The Joint Project Manager has been designated to be the central focal point for coordination and control of all WWMCCS-ADP upgrading and modernization.

The House report directed that a number of issues be addressed in a study of this program and the report be submitted to the committee in 3 months. In light of the fact that a new Joint Project Manager (JPM) has been set up for this program, the conferees direct that the report referred to in the House report be written by the JPM rather than the Defense Communications Agency and be submitted in 6 months rather than 3.

The conferees also agree that the JPM have appropriate management authority over all funds programed for the WWMCCS-ADP system. Any funds requested to support this system which are not under the management responsibility of the JPM will be considered not to be a part of the WWMCCS-ADP program.

The House report included language prohibiting proceeding with any major initiatives in certain subprograms of WWMCCS-ADP until a report, addressing various issues, was submitted to the committee. In view of the above direction such efforts can proceed if the JPM determines that they are essential to updating and improving the WWMCCS-ADP. Efforts which will not assist in this work, or which will have to be redone under one or more of the various updating programs will be terminated.

**STANDARD LEVEL USER CHARGE**

The conferees agree to delete the general provision proposed by the House which would have limited reimbursement to the General Services Administration to only 50 percent of the standard level user charge. The conferees did agree, however, that to the extent permitted by existing law: (a) space improvements paid for by DOD that are properly the responsibility of GSA should not be included in determining the standard level user charge; (b) any unilateral decrease in the support provided by GSA (such as cleaning and guard service) should be offset by a decrease in the standard level user charge; and (c) the quality of service provided by GSA for routine maintenance, painting, and other building services should be comparable to that in the private sector for similar type space being leased at comparable rates.

**NATIONAL CAPITAL REGION TRANSPORTATION CONSOLIDATION**

The conferees direct that the consolidation of the military services motor pool should be planned by the Department of Defense as the senior agency involved. The Department should implement these recommendations with the objective of maximizing efficiencies and economies that may be realized by consolidation or other actions as deemed appropriate. The Department of Defense shall be responsible for the management of such a consolidation and determine the guidelines for operations.

**OPERATION AND MAINTENANCE, ARMY**

Amendment No. 12: Appropriates \$15,037,897,000 instead of \$15,019,062,000 as proposed by the House and \$15,354,400,000 as proposed by the Senate.

Amendment No. 13: Provides \$944,600,000 only for the maintenance of real property in lieu of \$898,600,000 as proposed by the House and \$998,600,000 as proposed by the Senate.

**SKILL QUALIFICATION TEST**

The House deleted all funds for the Skill Qualification Test (SQT) based upon adverse reports by the General Accounting Office and the Army itself. The conferees endorse the concept of using an objective test to support personnel decisions and recognize that a portion of the development completed for the SQT could be retained in any follow-on test. The conferees have therefore restored half of the House reduction. The Army is directed that any additional funding will be provided via a reprogramming or a supplemental request only upon proper justification by the Army that a thorough analysis has been performed and a clear plan has been prepared as a basis for any follow-on test.

**MEDICAL INTELLIGENCE AND INFORMATION AGENCY (MIIA)**

The conferees agree to the continuance of the MIIA in FY 1982 at the budgeted funding and manpower levels. Additionally, the conferees agree to include MIIA in the FY 1982 General Defense Intelligence Program (GDIP). This action was taken reluctantly and the conferees expect that in FY 1983 the MIIA will be strictly an intelligence activity funded in the Defense Agencies (DIA) account. It should report to the Director, DIA, and not the Army Sur-

geon General, unless the Secretary of Defense furnishes the Appropriations Committees, by June 30, 1982, compelling justification as to why the existing organizational structure should not be altered.

The Department of Defense made a strong appeal that the MIIA is a valuable intelligence production agency, and the conferees expect it to be exactly that and nothing more. Other non-intelligence activities performed by the MIIA, as well as the funding and manpower billets related to them, are to be abolished. Additionally, the medical intelligence activities of all other DOD components are to be taken over by the MIIA. The conferees expect that the MIIA will be the only medical intelligence agency in DOD.

#### NEW CUMBERLAND ARMY DEPOT

The conferees agree that the Army shall continue the maintenance of CH-47 helicopters at the New Cumberland Army Depot as specified in the House report.

#### ARMY STOCK FUND

Amendment No. 14: Appropriates \$176,300,000 instead of \$163,300,000 as proposed by the House and \$211,300,000 as proposed by the Senate.

#### OPERATION AND MAINTENANCE, NAVY

Amendment No. 15: Appropriates \$19,385,889,000 instead of \$19,345,000,000 as proposed by the House and \$19,944,389,000 as proposed by the Senate.

#### SHIP OVERHAUL CHANGE ORDERS AND ADVANCE FUNDING

In view of the lateness of the appropriation, the conferees agree that it would be impractical to implement the ship overhaul change orders and advance funding procedures in this fiscal year as directed by the House Committee. However, the conferees fully endorse the implementation of this procedure in fiscal year 1983 as expressed by the Senate Committee. Although the funding required to begin this practice in fiscal year 1982 has been deleted in accordance with this agreement, the general provisions retain Section 708 (m) and (n) to reaffirm the conferees' resolve that this procedure shall be implemented in fiscal year 1983. It is expected that the fiscal year 1983 budget submission will include the necessary funding request to achieve this objective.

## SHIP LEASES

The conferees direct that ships to be leased with the \$60.0 million added to the operation and maintenance appropriation in conjunction with the October budget amendments must be used to lease ships with an option to purchase. Also, none of the funds provided are for overhaul or major configuration changes to such ships while they remain in private ownership. The Navy will inform the appropriate congressional committees by March 30, 1982 of the status of plans to lease and/or purchase appropriate seaborne transportation for the Rapid Deployment Force.

It is the intent of the conferees that no ships may be offered for charter to the United States under any program specifically including but not limited to the T-AKX program, unless the rebuilding, conversion, or reconstruction necessary to meet U.S. Navy performance requirements is accomplished in a shipyard or shipyards located in the United States.

Amendment No. 16: Provides \$685,000,000 instead of \$646,500,000 as proposed by the House and \$736,800,000 as proposed by the Senate for the maintenance of real property.

Amendment No. 17: The conferees agree to the Senate proposal deleting the provision in the House bill which made available \$3,699,700,000 only for regularly scheduled ship overhauls, restricted availabilities, and ship modifications. The conferees also agreed to the Senate amendment deleting the set aside of not less than \$24,000,000 for work at the Ship Repair facility, Guam.

Amendment No. 18: The conferees agree to the Senate proposal deleting the set aside of not less than \$24,000,000 for work at the Ship Repair Facility, Guam. Also deleted was the House provision that made available funds for work at other shipyards in amounts equal to the amount of work placed at the Ship Repair Facility, Guam.

Amendment No. 19: Restores House provision which makes not less than \$59,000,000 of the Navy Operation and Maintenance appropriation available only for payment in support of the LEASAT program.

*Summary.*—Items for which the conferees have provided specific guidance have been addressed elsewhere. The agreement on items in conference is as follows:

(In thousands of dollars)

	Budget	House	Senate	Conference

Alcohol and soft drinks.....		—1,000		—1,000
Efficiency review program.....		—1,000		—1,000

## OPERATION AND MAINTENANCE, AIR FORCE

Amendment No. 22: Appropriates \$16,079,719,000 instead of \$15,978,376,000 as proposed by the House and \$16,906,069,000 as proposed by the Senate. The conferees also agree to make \$29,000,000 available only for the installation of modification kits into KC-135 aircraft in lieu of \$46,800,000 as provided by the House and no funds as provided by the Senate.

## DEPOT MAINTENANCE INDUSTRIAL FUND

The conferees agree that the Air Force should discontinue the award of depot maintenance contracts in advance of appropriations and direct the Air Force to award only those contracts for which appropriations are currently available. The Air Force may seek the legislative authority to change this procedure, but in the absence of such legislation, the Air Force should seek to achieve the objectives outlined by the Senate Committee to assure a full transition to this procedure in fiscal year 1983.

## B-52D'S

The conferees agree that the B-52D's should be continued in operation until such time as the B-1 or other new strategic bomber becomes available. At that time existing B-52G and H model aircraft currently devoted to SIOP missions can be freed and programmed for the conventional warfare role. The B-52D's are to be retained and supported as planned in the original President's budget submission.

## KC-135 REENGINEING PROGRAM

A total of \$29 million is provided in the operating account and \$56 million in the procurement account for the reengining of KC-135 aircraft with JT3D engines. This funding is adequate to reengine the KC-135's in overhaul until the first delivery of the new CFM-56 engines. In that regard, no funds are to be diverted from the CFM-56 program in order to insure current delivery schedules of these engines as planned.

## CADIN-PINE TREE

The conferees agree to restore the \$3.8 million reduction made by the House to the Cadin-Pine Tree system of Air Defense radars. The restoration of these funds was made with the understanding that the Air Force and other appropriate Federal entities will undertake negotiations with the Canadian Government with a view toward sharing overall costs in a manner that is closer to the sharing arrangements prior to expanded contracting of facility operations.

## CONTRACTOR OPERATED SUPPLY STORES

The Air Force has for a number of years used contractor operated stores for base supply purposes. These stores are referred to as Contractor Operated Civil Engineer Supply Stores (COCESS) and Contractor Operated Parts Stores (COPARS). The conferees agree to delete the \$3 million added by the House to return these activities to direct Government operation. Accordingly, the Air Force need not begin the conversion of these stores to in-house operations in fiscal year 1982 as directed by the House.

However, the conferees expect the Secretary of Defense to make an independent assessment of the operation of these stores to include addressing the repeated allegations of contract abuse, product fraud, and other irregularities. If the Secretary of Defense determines that the continued operation of these stores results in economies and efficiencies as the Air Force claims, and that the allegations of fraud are unfounded, then the Appropriations Committees expect to be informed why such stores should not also be established at Army and Navy installations. The conferees expect a full report on this matter from the Secretary of Defense by June 1, 1982.

*Summary.*—Items for which the conferees have provided specific guidance have been addressed elsewhere. The agreement on items in conference is as follows:

#### AIR FORCE STOCK FUND

Amendment No. 23: Appropriates \$78,800,000 instead of \$67,800,000 as proposed by the House and \$107,800,000 as proposed by the Senate.

#### OPERATION AND MAINTENANCE, DEFENSE AGENCIES

Amendment No. 24: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment with an amendment appropriating \$4,985,400,000 instead of \$4,949,470,000 as proposed by the House and \$4,768,000,000 as proposed by the Senate. The Managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 25: The conferees agree to appropriate \$5,812,000 for emergencies and extraordinary expenses as proposed by the House, instead of \$8,500,000 as proposed by the Senate. This matter is discussed in the classified annex of the statement of the managers.

#### CIVILIAN HEALTH AND MEDICAL PROGRAMS OF THE UNIFORMED SERVICES

The conferees reached the following agreements with respect to various items in the reports which impact the Civilian Health and Medical Program of the Uniformed Services.

*Biofeedback.*—The conferees agree that CHAMPUS should continue to develop guidelines under which payments for biofeedback services could be reimbursed. Actual payments for such services in FY 1982 has not been authorized.

*Child and Spouse Abuse.*—The conferees agree that the Department of Defense should continue to address the problem of child and spouse abuse. An additional \$5.0 million has been provided for this by the conferees. The conferees also agree to accept the Senate amendment which makes funds available to establish a program of child advocacy and family counseling services to deal with problems of child and spouse abuse.

*Residential Treatment Centers.*—The FY 1982 budget proposed that Residential Treatment Centers no longer be recognized as au-

thorized providers for new admissions after October 1, 1981. The Senate report directed that DoD continue the RTC program as a recognized benefit. The conferees accept the Senate position and interpose no objection to the continued use of RTC's. Senate report language directing CHAMPUS to eliminate continued fraud and abuse is to be strictly observed.

*Health Maintenance Organizations.*—The conferees agree with the Senate report on the need for CHAMPUS to guarantee a return to regular CHAMPUS coverage for those beneficiaries who select to participate in the HMO test and find it unsatisfactory. The conferees further agree that the office of CHAMPUS or other appropriate activities of the Department of Defense will examine other types of health insurance, including existing government employee plans for possible use by military beneficiaries.

*Nonphysician Health Care Providers.*—The conferees agree to a change in the House version of the bill which will permit a certified nurse practitioner to bill directly for services provided. The conferees also agree to continue to allow certified clinical social workers to bill directly on a test basis only.

*Summary.*—Items for which the conferees have provided specific guidance have been addressed elsewhere. The agreement on items in conference is as follows:

[In thousands of dollars]

**NATIONAL BOARD FOR THE PROMOTION OF RIFLE PRACTICE**

Amendment No. 33: Provides that \$680,000 worth of ammunition may be issued for the promotion of rifle practice as provided by the Senate in lieu of \$340,000 as provided by the House.

Amendment No. 34: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate, as follows:

*Provided, That competitors at national matches under title 10, United States Code, section 4312, may be paid subsistence and travel allowances in excess of the amounts provided under title 10, United States Code, section 4313.*

**CLAIMS, DEFENSE**

Amendment No. 35: Appropriates \$155,700,000 as proposed by the House in lieu of \$198,200,000 as proposed by the Senate.

**TITLE IV—PROCUREMENT**

**AIRCRAFT PROCUREMENT, ARMY**

Amendment No. 36: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows: In lieu of the sum proposed by said amendment, insert the following: ; *\$1,911,100,000: Provided, That notwithstanding any other provision of this Act, after the head of the agency concerned gives written notification of a proposed multiyear contract for the purchase of the UH-60A Black Hawk aircraft to the Committees on Armed Services and on Appropriations of the Senate and House of Representatives, such contract may not then be awarded until the end of a period of 45 days beginning on the date of such notification*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The bill language agreed to by the conferees will enable the Army to enter into a multiyear contract for procurement of the Black Hawk helicopter, subject to prior approval of the Committees on Armed Services and Appropriations of the House of Representatives and the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Airplane, UV-18 (Twin Otter) .....			3,600	3,600

#### 155 MM IMPROVED CONVENTIONAL MUNITION (ICM)

The conferees agree to a total of \$116,800,000 for the 155 mm ICM, an increase of \$15,000,000 above the budget. The additional funds shall be used only for full-funded procurement of projectile end-items.

#### OTHER PROCUREMENT, ARMY

Amendment No. 40: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment appropriating \$3,721,971,000 instead of \$3,804,300,000 as proposed by the House and \$3,728,071,000 as proposed by the Senate. The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items in conference is as follows:

(In thousands of dollars)

	Budget	House	Senate	Conference
Truck, 5T, 6X6, ABT.....	301,700	296,700	301,700	296,700

Reduction, offsets/inflation.....	-4,000	-4,000	46,900	-4,000
Army Guard and Reserve equipment transfer .....		-5,200		-5,200

#### POSITION LOCATION REPORTING SYSTEM

Because of unresolved developmental problems, the conferees do not believe that procurement of the Precision Location Reporting System (PLRS) for the Army and Marine Corps would be prudent at this time. The conferees are in agreement, however, that such a

system, which would improve the tactical battlefield commander's ability to provide automatic and accurate identification, location and navigation data in all terrain and weather and enhance maneuver control, fire response time and airspace management, is an urgent requirement. Should the Department of Defense find it necessary to request procurement funding for PLRS items in Fiscal Year 1982, the conferees would seriously consider either a supplemental request or a reprogramming action, if data are provided indicating that the aforementioned developmental problems have been satisfactorily resolved.

#### ARMY NATIONAL GUARD EQUIPMENT

Amendment No. 41: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate appropriating \$50,000,000 for Army National Guard equipment. The House bill contained no appropriation.

The conference agreement will provide the following:

(In thousands of dollars)

	Budget	House	Senate	Conference
155mm Howitzer, M-109.....			20,700	20,700
Armored vehicle Laumen bridge.....			18,000	18,000
Mortar carrier M-125 A2.....			6,900	6,900
Command post vehicle.....			4,400	4,400

#### AIRCRAFT PROCUREMENT, NAVY

Amendment No. 42: Appropriates \$9,115,800,000 instead of \$8,946,800,000 as proposed by the House and \$9,431,400,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

**KC-130 TANKER**

The conferees agree to add \$64,000,000 for 4 KC-130's for the Marine Corps Reserve.

**AIRCRAFT SPARES AND REPAIR PARTS**

The conferees agree to add \$27,000,000 over the \$1,518,400,000 in the House bill for aircraft, spares and repair parts. This increase includes funds for the spares associated with the F-14, TF-30-414 engine modification program.

**WEAPONS PROCUREMENT, NAVY**

Amendment No. 43: Appropriates \$3,207,100,000 instead of \$3,196,100,000 as proposed by the House and \$3,327,100,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference

**SHIPBUILDING AND CONVERSION, NAVY**

Amendment No. 44: Appropriates \$315,600,000 for the Trident submarine program instead of \$230,700,000 as proposed by the House and \$330,700,000 as proposed by the Senate. The conference agreement also provides for the transfer of \$15,100,000 of unobligated balances from the "Trident submarine program" of "Shipbuilding and Conversion, Navy 1979/1983" to be used for Trident advance procurement funding.

Amendment No. 45: Appropriates \$475,000,000 for the CVN aircraft carrier program as proposed by the House instead of \$658,000,000 as proposed by the Senate.

Amendment No. 46: Appropriates \$81,000,000 for the aircraft carrier service life extension program as proposed by the House instead of \$100,800,000 as proposed by the Senate.

Amendment No. 47: Appropriates \$2,929,300,000 for the CG-47 AEGIS Cruiser program as proposed by the House instead of \$2,946,300,000 as proposed by the Senate.

Amendment No. 48: Appropriates \$45,000,000 for the LHA/LHDX helicopter assault ship program as proposed by the Senate. No funds for the LHA/LHDX were included in the House bill.

Amendment No. 49: Appropriates \$926,100,000 for the FFG guided missile frigate program as proposed by the House instead of \$971,900,000 as proposed by the Senate.

Amendment No. 50: Appropriates \$135,500,000 for the ARS salvage ship program as proposed by the House instead of \$160,500,000 as proposed by the Senate.

Amendment No. 51: Appropriates \$307,600,000 for the T-AKRX fast logistic ship program instead of \$184,000,000 as proposed by the House and \$323,000,000 as proposed by the Senate. The conference agreement also provides for the transfer of \$102,400,000 of unobligated balances of which \$58,000,000 shall be derived from the "maritime repositioning ship programs" and \$44,400,000 shall be derived by transfer from the "fast logistic ship (T-AKRX) program," both of which are from "Shipbuilding and Conversion, Navy, 1981/1985."

Additionally, the conferees direct that the Navy proceed immediately with the acquisition of the remaining two SL-7 ships; mini-modification of four SL-7 ships; and the partial RO/RO conversion of four SL-7 ships.

Amendment No. 52: Appropriates \$754,700,000 for craft, outfitting, post delivery, cost growth and escalation on prior year programs as proposed by the House instead of \$808,500,000 as proposed by the Senate.

Amendment No. 53: Deletes Senate amendment appropriating \$105,000,000 for inflation adjustments.

Amendment No. 54: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert: *for acquisition, construction and improvement, Coast Guard, \$300,000,000, to be allocated to the Coast Guard: "Acquisition, Construction and Improvements";*

The managers on the part of the Senate will move to concur in the amendment of House to the amendment of the Senate.

Amendment No. 55: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment transferring a total of \$117,500,000 instead of \$73,100,000 as proposed by the House and \$102,400,000 as proposed by the Senate.

The managers on the part of the Senate will move to concur in the amendment of House to the amendment of the Senate.

Amendment No. 56: Provides for the transfer of \$15,100,000 to be derived from the "Trident submarine program" of "Shipbuilding and Conversion, Navy 1979/1983" as proposed by the House. The Senate amendment deleted this transfer.

Amendment No. 57: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate transferring \$44,400,000 from the "fast logistics ship (T-AKRX) program" of

"Shipbuilding and Conversion, Navy, 1981/1985". The House bill did not contain this transfer.

Amendment No. 58: Provides for the reduction of \$12,000,000 for inflation offsets as proposed by the House. The Senate did not provide for this reduction.

Amendment No. 59: Provides for the reduction of \$13,700,000 for consultants, studies and analyses as proposed by the House instead of a reduction of \$7,000,000 as proposed by the Senate.

Amendment No. 60: Provides for the reduction of \$11,900,000 for Army Guard and Reserve equipment transfer as proposed by the House. The Senate did not provide for this reduction.

Amendment No. 61: Provides a total of \$8,821,400,000 for Shipbuilding and Conversion, Navy appropriation instead of \$8,148,900,000 as proposed by the House and \$9,331,900,000 as proposed by the Senate.

Amendment No. 62: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment transferring a total of \$117,500,000 instead of \$73,100,000 as proposed by the House and \$102,400,000 as proposed by the Senate.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 63: Provides that the Shipbuilding funds in the amount of \$8,821,400,000 and in addition, \$117,500,000 to be derived by transfer, will remain available until September 30, 1986, as proposed by the House instead of September 30, 1988, as proposed by the Senate.

Amendment No. 64: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides that \$119,000,000 of the appropriation for "Shipbuilding and Conversion, Navy" which expired for obligation on September 30, 1981 shall remain available for obligation until September 30, 1983, as proposed by the Senate. The House did not provide for this reappropriation.

The conference agreement on items in conference is as follows:

#### REACTIVATION OF THE BATTLESHIP IOWA

The conference agreement includes \$89 million for long leadtime items for the reactivation of the Battleship Iowa. The conferees direct that the Navy include, as part of the criteria in selecting the shipyard to reactivate the Battleship Iowa, the costs associated with the rescheduling of work previously planned on other ships. The workload adjustments required to accommodate the reactivation, such as rescheduling of such work at a later date, will increase the cost of work on the other ships. Such costs must be included in any cost comparisons made. Additionally, consideration must be given to the cost impact when weapons and long-lead components will be deferred from newer ships to be placed on the Iowa.

#### CONCERN FOR ADEQUATE SEALIFT

The conferees recognize the importance of providing adequate sealift for mobilization purposes. It is also noted that the Administration has recently announced its intention to place increased reliance on maritime pre-positioning over land basing in Southwest Asia.

In light of these factors, the conferees are concerned with the impact of elimination of funds for the acquisition of commercially obsolete US flag merchant vessels for the Ready Reserve Fleet and the National Defense Reserve Fleet under Section 510 of the Merchant Marine Act. This elimination of funds comes about as a consequence of the suspension of the Construction Differential Subsidy, but was not fully debated as part of that action. The limited funds deferred to fiscal year 1982 for the program have already been obligated, and it appears that the Government will not be able to take advantage of all desirable offers to the Maritime Administration for such ships.

Therefore, the conferees urge the Department to give prompt attention to this matter and to advise the Appropriations Committees on the availability of ships with potential Rapid Deployment Force, Ready Reserve Fleet or National Defense Reserve Fleet application. In addition, a description of the adequacy of present assets to meet mobilization requirements shall be provided. Should needed ships be identified, the Department shall consider submitting a reprogramming or supplemental request for their acquisition.

#### OTHER PROCUREMENT, NAVY

Amendment No. 65: Appropriates \$3,708,777,000 instead of \$3,695,577,000 as proposed by the House and \$3,880,268,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

**LAMPS MARK III**

The House, because of the dramatic increase in cost, directed that the Navy cancel the LAMPS MARK III backfitting program for 31 FFG-7's, 4 DD-993's, and 2 CG-47's and the procurement of LAMPS MARK III shipboard equipment for these ships. The conferees agree that consideration will be given during the fiscal year 1983 budget deliberations to alternative strategies, submitted by the Department, as they relate to the LAMPS MARK III retrofitting program.

**PROCUREMENT, MARINE CORPS**

Amendment No. 66: Appropriates \$1,711,456,000 instead of \$1,682,556,000 as proposed by the House and \$1,758,716,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

## AIRCRAFT PROCUREMENT, AIR FORCE

Amendment No. 67: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed in said amendment, insert: *\$13,818,998,000, of which \$102,800,000 shall be available only for a classified program, and*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference

Foreign military sales adjustment.....	.....	-8,000	.....	.....

Amendment No. 68: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert: *and \$1,801,000,000 shall be available only for purchase of B-1B aircraft when the President certifies to the Congress that it is feasible to accomplish the program for the purchase of 100 B-1B aircraft at a total program cost of not to exceed \$20,500,000,000 (in constant fiscal year 1981 dollars), or in such other amount as the President certifies and explains to the Congress, and such funds for the purchase of B-1B aircraft shall remain available during any quarter that the total program cost of 100 B-1B aircraft is included in any Selected Acquisition Report required for the B-1B program for the previous quarter by section 811 of the Department of Defense Appropriation Authorization Act, 1976 (10 U.S.C. 139 note),*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 69: Makes available \$56,000,000 only for the procurement of B-707 aircraft to provide for engines and parts to reengine KC-135 aircraft, instead of \$103,500,000 as proposed by the House. The Senate amendment deleted the House language.

Amendment No. 70: Earmarks \$344,300,000, as proposed by the Senate, for contribution of the U.S. share of the cost of the acquisition by NATO of AWACS aircraft instead of \$334,300,000 as proposed by the House.

Amendment No. 71: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which transfers \$89,700,000 from aircraft procurement, Air Force, 1981-83.

#### MISSILE PROCUREMENT, AIR FORCE

Amendment No. 72: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed in said amendment, insert: *\$4,559,550,000, of which \$624,400,000 shall be available only for a classified program*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items in conference is as follows:

(In thousands of dollars)

	Budget	House	Senate	Conference
Minuteman upgrade and expansion .....			5,000	5,000
ICBM C3 integration .....	54,436	54,436	56,136	54,436

Defense support program .....	230,254	242,254	230,254	242,254
Special programs .....	757,772	757,772	763,072	763,072
Special update programs .....	441,286	791,286	333,786	791,286
Reduction, offsets/inflation .....	-5,000	-5,000	54,600	-5,000
Army Guard and Reserve equipment transfer .....		-5,900		-5,900

#### MK-12A REENTRY VEHICLE

The House included \$44,600,000 for continuing procurement of the MK-12A reentry vehicle. The Senate included no funds for this program. The conferees recommend \$22,300,000 for the MK-12A program and direct the Air Force to reprogram any funds necessary to maintain production.

#### NAVSTAR-GPS

The conferees agree the NAVSTAR Global Positioning Satellite (GPS) system is of critical importance for strategic and tactical defense missions. The conferees also are concerned that without procurement appropriations, the Initial Operational Capability (IOC) of NAVSTAR will slip. The conferees, therefore, direct the Air Force to reprogram funds necessary to maintain the current IOC of NAVSTAR.

#### DEFENSE SUPPORT PROGRAM

The conferees agree that the \$242,254,000 for the Defense Support Program is to be used to procure long leadtime items, including the manufacture of components and subsystems to the maximum extent feasible. The Air Force is to submit a budget in fiscal

year 1983 based on fully-funding the units for the Defense Support Program in a block buy in order to maximize cost savings.

#### CLASSIFIED PROGRAM

The conferees agree to the addition of \$5,300,000 for a classified program as proposed by the Senate. The conferees further agree that this additional sum is subject to the later concurrence of the authorization committees.

#### OTHER PROCUREMENT, AIR FORCE

Amendment No. 73: Appropriates \$5,365,633,000 instead of \$5,379,288,000 as proposed by the House and \$5,357,589,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

(In thousands of dollars)

	Budget	House	Senate	Conference
Caliber .38.....	7,195	5,295	7,195	5,295
30 mm API.....	232,619	232,619	222,619	222,619

Base mechanization equipment.....	13,330	8,330	8,300	8,300
Items less than \$900,000.....	23,025	20,025	20,000	20,000
Medical/dental equipment.....	46,794	27,294	46,794	46,794
Selected activities.....	1,903,468	1,884,214	1,903,468	1,890,514
Special update program.....	282,533	532,533	282,533	532,533
Reduction, offsets/inflation.....	-6,000	-6,000	65,500	-6,000
Foreign military sales adjustment.....		-1,000		
Audio visual equipment.....		-3,280		-3,280
Army Guard and Reserve equipment transfer.....		-7,200		-7,200
Classified programs.....			59,000	

#### SLBM PHASED ARRAY RADAR

The conferees agree to provide no procurement funds for the PAVE PAWS radar, as proposed by the House, instead of \$71,000,000 as proposed by the Senate. The conferees further agree that the Appropriations Committees will consider a supplemental budget request to initiate procurement of this rada for the south-eastern site if the Air Force deems that it is of sufficient priority to be included in a supplemental budget request.

#### CLASSIFIED PROGRAM

The conferees agree to the addition of \$3,300,000 for a classified program as proposed by the Senate. The conferees further agree that this additional sum is subject to the later concurrence of the authorization committees. The conferees also agree to restore \$3,000,000 as proposed by the Senate which will be explained in the classified annex to the Statement of the Managers.

**PROCUREMENT, DEFENSE AGENCIES**

Amendment No. 74: Appropriates \$511,500,000 as proposed by the House instead of \$518,700,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Classified programs.....	447,058	442,058	447,058	442,058
Reduction, offsets/inflation.....	-1,000	-1,000	5,500	-1,000
Army Guard and Reserve equipment transfer.....		-1,200		-1,200
Reallocation of WWMCCS resources.....		5,500		5,500

**FIGHTING VEHICLE SYSTEMS (FVS)**

The conferees agree that a side by side comparison of FVS alternatives is not necessary but that the Army should consider procuring or leasing such alternatives for testing in conjunction with the 9th Infantry test bed program.

**VIPER**

The conferees agree with language in the Senate report expressing concern about the cost and technical problems of VIPER and directing testing and evaluation of alternative systems. This testing program is to be carried out within available funds. The testing program shall address the needs of all services and the Office of the Secretary of Defense shall be involved in the evaluation.

**SECURE VOICE IMPROVEMENT PROGRAM (SVIP)**

The House report directed that the funds requested for upgrading the AUTOSEVOCOM secure voice system be used instead to procure standard telephone unit (STU II) secure telephones. The conferees agree that the DOD may proceed with the planned upgrade of the AUTOSEVOCOM system but direct that \$1,000,000 of the funds requested for that upgrade be expended on procurement of standard telephone units.

**C-130 AIRCRAFT**

The conferees agree that all eight of the C-130 aircraft provided in the aircraft procurement, Air Force account, shall be allocated to the Air National Guard.

**TITLE V—RESEARCH, DEVELOPMENT, TEST AND EVALUATION**

**RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY**

Amendment No. 75: Appropriates \$3,609,535,000 instead of \$3,577,119,000 as proposed by the House and \$3,759,409,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

**AIRCRAFT WEAPONS**

The conferees agree to provide \$512,000 for Aircraft Weapons as proposed by the House, rather than \$10,312,000 as proposed by the Senate. The \$9,800,000 reduction was recommended for advanced development of millimeter wave radar and fire control systems for attack helicopters. The action taken by the conferees is taken without prejudice, since the project is asked to be deferred, pending transfer of more mature technology from on-going millimeter wave programs to this program, and the onset of increased stabilization in the Advanced Attack Helicopter (AAH) procurement program.

**AIRCRAFT WEAPONS**

The conferees agree to provide \$512,000 for Aircraft Weapons as proposed by the House, rather than \$10,312,000 as proposed by the Senate. The \$9,800,000 reduction was recommended for advanced development of millimeter wave radar and fire control systems for attack helicopters. The action taken by the conferees is taken without prejudice, since the project is asked to be deferred, pending transfer of more mature technology from on-going millimeter wave programs to this program, and the onset of increased stabilization in the Advanced Attack Helicopter (AAH) procurement program.

**ADVANCED DEVELOPMENT OF AUTOMATIC TEST EQUIPMENT**

The conferees agree to provide \$9,655,000 for Advanced Development of Automatic Test Equipment, instead of \$14,355,000 as proposed by the House and \$5,355,000 as proposed by the Senate. This amount, together with the \$4,700,000 unobligated balance remaining in this program from fiscal year 1981, will provide the full authorized amount for fiscal year 1982.

**FORCE LEVEL MANEUVER CONTROL—SIGMA**

The conferees agree to provide \$14,869,000 for Force Level Maneuver Control—SIGMA as proposed by the Senate, rather than \$11,000,000 as proposed by the House.

The conferees agree that Army efforts for fiscal year 1982 should go forward as planned, with the clear understanding, however, that TCT and TCS equipments will begin procurement in fiscal year 1983, so that practical operational benefits can be obtained as rapidly as possible.

**ROTARY WING AIRCRAFT ESCAPE SYSTEM**

**HELICOPTER ESCAPE SYSTEMS**

The conferees agree to the language in House Report No. 97-333 concerning Rotary Wing Aircraft Escape System, also referred to as Helicopter Escape Systems.

**ARMY CALIBRATION EQUIPMENT**

The conferees agree that the Army has been slow in assembling an accurate data base on which to support decisions on the future purchase of calibration equipment. Despite testing by the White Sands Missile Range and intensive review by the General Accounting Office and the Inspector General of the Army, the Army states that it is still uncertain as to the cost effectiveness of alternate sys-

tems, including those manufactured by Julie Research Laboratories, Inc. The conferees direct the Army to assemble and analyze all of its previous findings, from whatever source, and to submit to Congress no later than March 15, 1982, a final comprehensive report, including a detailed implementation plan for the acquisition of calibration equipment. This does not restrict in any way the Army's authority to purchase calibration equipment during fiscal year 1982.

#### RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

Amendment No. 76: Appropriates \$5,844,357,000 instead of \$5,617,671,000 as proposed by the House and \$6,113,579,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

(In thousands of dollars)

	Budget	House	Senate	Conference
Defense research sciences.....	260,611	251,572	260,611	255,000

#### S-1 COMPUTER

The conferees agree to provide \$900,000 for the Navy S-1 computer. This is one-half the Navy request of \$1.8 million. The conferees note that the \$7.5 million funding increase for the S-1 computer in FY 1981 was considered sufficient to complete the Lawrence Livermore Laboratory effort during FY 1981. Should the Navy determine that additional funding is required for further testing and development of the S-1 advanced multiprocessor computer in FY 1982, both appropriations committees would be willing to entertain a reprogramming action to accommodate such an initiative.

#### MEDICAL RESEARCH AND DEVELOPMENT

The House designated the Army as lead agency for infectious diseases and combat dental research. The conferees understand that the House language requires neither the closure of any present Navy R&D laboratory nor the cessation of Navy participation in these efforts. The conferees further understand that manpower management practices, as in other consolidated R&D efforts, will provide preservation of Navy identity and maintain Navy career patterns, while continuing the practice of periodic assignments of scientists of one Service to the laboratories of another. With these understandings, the conferees agree to the language of the House.

Because fiscal year 1982 has already begun, the transfer of funds from the Navy to the Army proposed by the House may be disruptive of on-going efforts. The conferees therefore agree to provide the full budgeted amounts for Navy Biomedical Technology and Navy Medical Development.

#### MK-48 ADCAP

The conferees agree to provide \$154,400,000 for MK-48 ADCAP, rather than \$117,000,000 as proposed by the House and \$167,200,000 as proposed by the Senate. The conferees agree that significant cost increases in the MK-48 ADCAP program are a matter of deep concern, and that the Navy should provide the results of a "Should Cost" study by March 1, 1982. In order to avoid adverse impact on this important program, the conferees agree that the Navy may use without further restriction up to \$91,900,000 for the Validation Phase of the program. The conferees agree that obligation and expenditure of funds for the full scale engineering development phase of the program will remain subject to the conditions stated in House Report No. 97-333.

#### HXM HELICOPTER

The conferees agree to provide no funds for HXM Helicopter as recommended by the House, instead of \$5,229,000 as recommended by the Senate. The conferees are concerned over the potentially very high cost of such a program, as well as the apparent lack of firm plans. The conferees believe that additional CH-53E procurement should provide adequately for Marine Corps needs. The conferees agree the Appropriations Committees will entertain a reprogramming request should the Marine Corps require funds to study the problem.

#### NAVY UNDERGRADUATE JET FLIGHT TRAINING SYSTEM

The Navy announced on November 19 that the team of McDonnell Douglas/British Aerospace/Sperry had been selected to begin pre-full scale development of the Navy's new undergraduate training system, the VTXTS, thus ending a competition among five contractors for this award. The Navy procurement plan for VTXTS called for retaining two sources in competition through the pre-full scale development phase during which firm specifications and development costs would be generated. By eliminating all but one contractor the Navy has prematurely ended the competition for this award with the result that firm specifications and program costs would be negotiated on a sole source basis with the remaining contractor. The conferees believe that the continuation of this program on a competitive basis through the end of pre-full scale development would result in savings of hundreds of millions of dollars in a program estimated to have a 20-year life cycle cost of at least \$5.5 billion. The conferees therefore direct the Navy to continue a competition of two contractors through the end of the pre-full scale development phase using available funds to sustain a competitive pre-full scale development program.

#### SURFACE EFFECTS SHIPS

The conferees agree to provide no funds for Surface Effects Ships as proposed by the House, instead of \$5,000,000 as proposed by the Senate. The conferees agree that the Navy may use existing funds to maintain the current design office, pending receipt of a supplemental funding request to carry out the program outlined in the December 11, 1981 letter of the Under Secretary of Defense for Research and Engineering, at which time the Committees on Appropriations will afford it full consideration.

#### MK 92 UPGRADE PROGRAM

The conferees emphasize their strong support for this program which will provide a substantial increase in the anti-air warfare capability of the MK 92 fire control system through the addition of a new four-faced, x-band phased array radar to the system for use on the FFG-7 class frigates. The primary aim in this program's development should be the earliest possible introduction of this system into the fleet.

To date, the start of this program has been unacceptably delayed. Therefore, the conferees request that this program be executed without further delay. Special emphasis should be given to the early development of the phased array radar.

## RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

Amendment No. 77: Appropriates \$8,659,610,000 instead of \$8,501,210,000 as proposed by the House and \$9,076,906,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Defense research sciences.....	139,500	133,500	139,500	136,500

Army Guard and Reserve equipment transfer.....		-12,400		-12,400

## VERY HIGH SPEED INTEGRATED CIRCUITS

The conferees agree to provide \$55,700,000 for Very High Speed Integrated Circuits (VHSIC), as proposed by the House instead of \$40,700,000 as proposed by the Senate. In addition, the conferees are informed that the Air Force has transferred \$10,000,000 out of the VHSIC program during fiscal years 1980 and 1981. The Air

Force is directed to reprogram these funds back into VHSIC during fiscal year 1982.

**AIRBORNE LAUNCH CONTROL SYSTEM**

The conferees agree to the House position to provide no funding for the Air Force Airborne Launch Control System (ALCS) Phase III program for 200 Minuteman III ICBM's. The conferees suggest that if this program is of sufficiently high priority, the Air Force may wish to consider a supplemental request for funds.

**ENFORCER**

The conferees agree to provide \$6,000,000 for Enforcer as proposed by the Senate, instead of no funds as proposed by the House. The conferees direct the Air Force to conclude this test of the Enforcer, in a timely manner, during FY 1982. The conferees agree that there should be no need for additional appropriations for this test of the Enforcer.

**NIGHT PRECISION ATTACK (LANTIRN)**

The conferees agree to provide an appropriation of \$87,600,000. This amount is required to prevent schedule slip and cost growth in fabrication of development pods, flight test of navigation targeting pods, and production readiness initiatives. The optimum program avoids inefficient development delays and cost increases. These funds are to be used only for continuation of the ongoing development program as currently structured by the Air Force to preclude further delays and increased costs.

**RAPPORT III**

The conferees agree that the Rapport III system, currently being tested by the Belgian Air Force with U.S. Air Force assistance, should be viewed as a possible interim capability pending availability of the airborne self-protection jammer (ASPJ), and as a potential backup if ASPJ should encounter significant technical or cost problems. The Air Force is directed to procure Rapport III test articles and to conduct necessary testing for a full and fair evaluation of the system for use by the USAF in the F-16 aircraft. The total amount to be spent to carry out this direction shall not exceed \$6 million, exclusive of support costs, and shall be derived by reprogramming of available funds within the various electronic warfare programs. All testing and evaluation shall be completed during fiscal year 1982. The conferees are confident that these directions will be carried out promptly and in a spirit of cooperation, and that the subsequent evaluation will be objective.

**ALTERNATE FIGHTER ENGINE—ENGINE MODEL DERIVATIVE PROGRAM**

The conferees agree to provide \$35,000,000 in the Alternate Fighter Engine program to continue development of the F-101 Derivative Fighter Engine. The conferees further agree to add \$17,500,000 above the budget to the engine model derivative program for development work on increasing the thrust of the existing F-100 engine.

The conferees strongly support continued competition in the field of fighter engines. Although the Air Force is on record as having

no present requirement for higher thrust engines, the conferees are concerned that such a requirement may emerge in the future. In that event, availability of at least two competing engines of the same thrust class will be in the Nation's best interests. For this reason, the conferees have agreed to the stated funding.

**ADVANCED BALLISTIC RE-ENTRY SYSTEMS (ABRES)**

The Senate and the House increased the ABRES funding from \$49 million to \$100 million. This additional amount is to be used in part to complete advance development and flight testing for the Advanced Ballistic Reentry Vehicle and fuzing subsystems. This advanced technology will provide payload options for the MX, Trident D5, Minuteman and possibly the small ICBM.

**CLASSIFIED PROGRAM**

The conferees agree to the addition of \$16,400,000 for a classified program as proposed by the Senate. The conferees further agree that this additional sum is subject to the later concurrence of the authorization committees.

Amendment No. 78: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which restricts use of \$334,000,000 of MX funds to only research and development related to non-superhardened silos.

**RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE AGENCIES**

Amendment No. 79: Appropriates \$1,692,646,000 instead of \$1,613,204,000 as proposed by the House and \$1,843,495,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Defense research sciences.....	94,400	89,400	94,400	89,400
Strategic technology.....	145,831	145,831	192,431	151,831
Particle beam technology.....	29,000	29,000	36,000	32,500
Experimental eval maj innovative tech.....	273,340	216,340	251,340	241,340
Defense Nuclear Agency.....	288,078	230,000	279,278	260,000
NMCS-wide support.....	7,713	9,313	7,713	9,313
WWMCCS ADP-JTSA.....	12,814	14,314	12,814	14,314
WWMCCS system engineer.....	45,052	49,452	82,552	49,452
Map/chart/geodesy inv/prototype dev.....	19,810	15,808	19,810	17,000
Long-haul communications (DCS).....	19,550	18,050	19,700	18,200
Classified programs.....	623,580	576,154	602,980	589,754
Special activities.....			3,135	
Reduction, inflation/offsets.....	-2,000	-2,000	17,300	-2,000
Army guard and reserve equipment transfer.....		-2,500		-2,500

**STRATEGIC TECHNOLOGY, DARPA**

The conferees agree to an appropriation of \$151,831,000 for Strategic Technology, DARPA. The Strategic Technology appropriation is allocated accordingly:

	<i>Thousands</i>
Blue-green laser communications .....	30,200
Space based lasers .....	64,200
Carbon-carbon .....	1,000
Strategic technology .....	28,611
Other programs .....	33,420
September reduction .....	-5,600
Total, strategic technology-DARPA .....	151,831

**KOREAN EQUIPMENT UPGRADE**

The conferees agree to provide \$5,000,000 for program management activities in project SORAK, a Korean equipment upgrade. However, before this major new initiative is undertaken, complete plans, schedules and life cycle costs must be provided, as well as the terms of any host nation funding agreements. In addition, while the demonstration is largely drawn from DARPA developed technology and DARPA therefore should play a major role, this demonstration is more properly a joint Army and Air Force project requiring close coordination with Commander in Chief, Pacific, and the services should be active participants.

**TEAL RAIN/RADIUS WHITE**

The conferees were informed by the Department of Defense that an addition of \$20 million made by the authorization conference for two classified programs (Teal Rain and Radius White) was erroneously authorized in the Strategic Technology account (PE62301E). The Department requested that the additional \$20 million be appropriated in the Experimental Evaluation in Major Innovative Technologies (PE62711E) account. The conferees agree to appropriate the \$20 million for these two programs in the Experimental Evaluation in Major Innovative Technologies account.

**LONG-HAUL COMMUNICATIONS**

The conferees agree to an appropriation of \$18,200,000 for Long-Haul Communications. This is the figure proposed by the House, together with the addition of \$150,000 for EMP hardening of certain White House facilities and DCA's contribution to the development of modulation techniques to facilitate communications propagation through scintillation effects.

**TITLE VII—GENERAL PROVISIONS**

Amendment No. 80: Deletes House provision allowing for payments for depot maintenance contracts for twelve months beginning at any time during the fiscal year.

The conferees also agree to adopt House subsections (n) and (o) now renumbered as subsections (m) and (n) which provide for new ship overhaul and repair funding procedures.

Amendment No. 81: Deletes House provision which prohibits the use of funds in the bill to facilitate the sale of foreign manufactured optional uniform items by military clothing sales stores or by the Department of Defense operated exchange system stores.

Amendment No. 82: Deletes House provision which permitted the procurement of specialty metals or chemical warfare protective clothing produced outside the United States. This provision provided exceptions to the "buy American" section of the bill (section 723) allowing the purchase of foreign produced items for the pur-

pose of offsetting sales made by the U.S. Government or U.S. firms under approved programs serving defense requirements or where such procurement is necessary in furtherance of the standardization and interoperability of equipment requirements within NATO so long as such agreements with foreign governments comply, where applicable, with requirements of section 36 of the Arms Export Control Act and with section 814 of the Department of Defense Appropriation Authorization Act, 1976.

Amendment No. 83: The Senate receded from its amendment which strikes a portion of section 741 from the bill. The portion restored by the conferees exempts CHAMPUS beneficiaries from the limitation requiring use of a military medical facility for non-emergency in-patient hospital care when residing within 40 miles of a military medical facility and the beneficiary has supplemental primary insurance coverage which will pay for at least 75 percent of the covered medical services.

Amendment No. 84: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which strikes House subsection (e) and inserts in lieu thereof a revised subsection (e) of section 742 so that no cosmetic surgery for any purpose is automatically excluded from coverage if a serious deformity is involved. The amended section reads as follows: *(e) surgery which improves physical appearance but which is not expected to significantly restore functions including, but not limited to, mammary augmentation, face lifts and sex gender changes except that breast reconstructive surgery following mastectomy and reconstructive surgery to correct serious deformities caused by congenital anomalies, accidental injuries and neoplastic surgery are not excluded;*

Amendment No. 85: Reported in technical disagreement. The Managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which permits direct reimbursement to certified nurse practitioners from funds appropriated for the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS). The Senate provision also continues the test of direct reimbursement to certified clinical social workers as did the House bill.

Amendment No. 86: The Managers on the part of the Senate receded from the amendment striking Section 765 from the bill. The section continues the restriction to prohibit the use of funds for medical care in the United States on an inpatient basis for foreign military and diplomatic personnel and their dependents unless they or their sponsoring government reimburse the United States for costs incurred.

Amendment No. 87: Reported in technical disagreement. The Managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert:

*SEC. 765A. None of the funds made available by this Act shall be used in any way for the leasing to non-federal agencies in the United States aircraft or vehicles owned or operated by the Department of Defense when suitable aircraft or vehicles are commercially available in the private sector.*

The Managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree that the Department of Defense should discontinue the leasing out of aircraft or vehicles when suitable aircraft or vehicles are commercially available in the private sector. The House amendment to the Senate amendment specifies that such leasing to non-federal agencies of aircraft or vehicles owned and operated by DOD shall be restricted by this provision.

Amendment No. 88: The conferees agree to the House language, which requires specific provision in this Act for a multiyear procurement contract to be awarded for a major weapons system, instead of the Senate amendment to the House language which would have limited application of the House language to multiyear contracts with cancellation ceilings over \$100,000,000. In this connection the conferees also agree to include language in Amendment No. 36, Aircraft Procurement, Army, to permit award of a multiyear procurement contract for the UH-60A Black Hawk aircraft with prior approval of the Committees on Armed Services and on Appropriations of the Senate and House.

Amendment No. 89: Reported in technical disagreement. The Managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken by said amendment, insert the following:

*SEC. 770. None of the funds appropriated in this or any other Act shall be available for obligation to reimburse a contractor for the cost of commercial insurance that would protect against the costs of the contractor for correction of the contractor's own defects in materials or workmanship.*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 90: Restores the House provision which prohibits paying two subsistence allowances to enlisted personnel when they are in a travel status.

Amendment No. 91: Deletes Senate provision which prohibited use of funds in the Act for evaluation or procurement of 9 mm handguns.

Amendment No. 92: Restores the House provision which rounds military retirement service credit to the nearest month for any portion of a year in excess of six months.

Amendment No. 93: Reported in technical disagreement. The Managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment insert 773.

The Managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section permits DoD to transfer up to \$1,700,000 to the Federal Emergency Management Agency for military support to civil defense.

Amendment No. 94: Deletes House provision which would have limited rental reimbursement to the General Services Administration to 50 percent of the Standard Level User Charge.

Amendment No. 95: The conferees agree to include language proposed by the Senate prohibiting implementation of the Competitive Rate Program for the transportation of household goods to or from Alaska or Hawaii and to change the section number to 774. A similar provision has been contained in previous Department of Defense Appropriation Acts. The conferees also agree that the Department of Defense should proceed with the review of industry proposals to develop a competitive rate system and report to the Appropriations Committees as directed in the Senate report.

Amendment No. 96: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

*SEC. 775. None of the funds appropriated by this Act for the pay of Reserve and National Guard technicians based upon their employment as technicians and their performance of duty as members of the Reserve components of the Armed Forces shall be available to pay such technicians a combined compensation in excess of the rate payable for level V of the Executive Schedule: Provided, That for purpose of calculating such combined compensation, no military compensation other than basic pay will be included.*

The Managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 97: Restores the matter stricken by said amendment pertaining to the reporting of waivers of RDT&E or other costs related to a foreign military sale as proposed by the House and changes the section number from 775 to 776.

Amendment No. 98: Restores the House provision which prohibits an employee who transfers or has been reassigned from Alaska or Hawaii from continuing to receive the higher Alaska or Hawaii pay rate. Current procedure allows an employee transferred or reassigned from Alaska or Hawaii to continue to receive the higher pay rate for up to two years after the reassignment or transfer. This provision does not apply to employees who are transferred or reassigned as a result of a reduction in force or a reorganizational transfer, and changes the section from 776 to 777.

Amendment No. 99: Deletes section proposed by the Senate which authorized \$25,000,000 for a dental care test program as part of the Civilian Health and Medical Program of the Uniformed Services.

Amendment No. 100: Deletes the House provision which prohibits the hiring of foreign nationals when qualified United States citizens are available to perform the work. This provision only applied to United States citizens living in the foreign country where the vacant positions occur. The conferees agree that the DoD should take every possible action including renegotiation of existing agreements if necessary in order to enhance the employment opportunities for U.S. citizens living in overseas areas.

Amendment No. 101: Reported in technical disagreement. The Managers on the part of the House will offer a motion to recede

and concur in the amendment of the Senate with an amendment as follows:

In lieu of section number 774 named in said amendment, insert 778.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section makes funds available for a child advocacy and family counseling services program.

Amendment No. 102: Restores the matter stricken by said amendment pertaining to the Army POMCUS program and changes the section number from 778 to 779.

Amendment No. 103: Deletes House provision prohibiting the operation of the Army Medical Intelligence and Information Agency after September 1, 1982.

Amendment No. 104: Restores House section number (780).

Amendment No. 105: Restores the House provision permitting the Department of Defense to lease no more than six aircraft as suitable replacements for C-140 aircraft.

Amendment No. 106: Restores the House provision which prohibits the transfer of any article of military equipment, data, or technical data package to a foreign country prior to the approval of the Secretary of the military service involved.

Amendment No. 107: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

Restore the matter stricken by said amendment, amended to read as follows:

*(b) No funds appropriated by this Act may be used for the transfer of a technical data package from any Government-owned and operated defense plant to any foreign government, nor for assisting any such government in producing any defense item currently being manufactured or developed in a United States Government-owned, Government-operated defense plant manufacturing large caliber cannons.*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 108: Deletes House provision relating to implementation of Phase II of the Single Manager for Conventional Ammunition, as proposed by the Senate. The conferees agree that the recently reissued Department of Defense Directive is a step in the right direction toward strengthening the Office of the Single Manager for Conventional Ammunition. Agreeing to delete the House provision, however, should not be interpreted as approval that this directive is fully satisfactory. The Department of Defense should be prepared to explain its plans for further strengthening this Office in next year's hearings. Such plans should fully address the observations and recommendations of the General Accounting Office and the Committees of Congress.

Amendment No. 109: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate, with an amendment as follows:

Restore the matter stricken by said amendment, amended to read as follows:

*SEC. 783. None of the funds available in this Act shall be used by the Secretary of a military department to make a contract for the purchase of administrative motor vehicles that are manufactured outside the United States or Canada unless the contractor was selected through competitive bidding without a differential in favor of foreign manufacturers: Provided, That this section does not apply to contracts for amounts less than \$50,000, nor to existing contracts.*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 110: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate, with an amendment as follows:

Restore the matter stricken by said amendment, amended to read as follows:

*SEC. 784. None of the funds appropriated in this Act may be made available through transfer, reprogramming, or other means for any intelligence or special activity different from that previously justified to the Congress unless the Director of Central Intelligence or the Secretary of Defense has notified the House and Senate Appropriations Committees of the intent to make such funds available for such activity.*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 111: Deletes House provision prohibiting a personal cook, chauffeur, or servant for any DOD employee or officer.

Amendment No. 112: Restores the matter stricken by said amendment pertaining to EPA gas mileage of passenger automobiles procured with funds in the Act and changes the section number from 787 to 785.

Amendment No. 113: Restores the matter stricken by said amendment pertaining to Executive Schedule positions in DOD and changes the section number from 788 to 786 and the number of positions allowed from 33 to 35.

Amendment No. 114: Deletes Senate provision preventing the use of any funds in the Act to pay lobbying costs.

The conferees agree not to include Senate Section 776 since there are existing federal laws which regulate lobbying. The conferees further feel that the inclusion of such a detailed legislative matter in an appropriation bill violates the jurisdiction of the legislative committees involved. The conferees agree that the appropriate legislative committees should hold hearings and give careful consideration to required revisions in the law regulating lobbying activities.

Amendment No. 115: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert 787.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 116: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert 788.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 117: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert 789.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 118: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of section number named in said amendment, insert 790.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 119: Deletes the sense of the Senate provision commending the delegates and observers to the 1981 White House Conference on the Aging.

Amendment No. 120: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of section number 782 named in said amendment, insert 791.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The Senate amendment pertains to the role, mission, and ship-building program of the United States Department of the Navy.

#### TITLE VIII—RELATED AGENCIES

##### INTELLIGENCE COMMUNITY STAFF

Amendment No. 121: Appropriates \$13,063,000 instead of \$12,563,000 as proposed by the House and \$13,563,000 as proposed by the Senate. The conferees agree that the funds appropriated will support a total of 210 personnel for the Intelligence Community Staff during fiscal year 1982.

##### CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 1982 recommended by the Committee of Conference, with comparisons to the fiscal year 1981 amount, the 1982 budget estimates, and the House and Senate bills for 1982 follow:

[In thousands of dollars]

New budget (obligational) authority, fiscal year 1981 .....	171,350,899
Transfer from other accounts, fiscal year 1981 .....	(303,866)
Total funding available .....	171,654,765
Budget estimates of new (obligational) authority, fiscal year 1981 .....	200,878,234
Transfer from other accounts .....	
Total funding available .....	200,878,234
House bill, fiscal year 1982 .....	197,443,289
Transfer from other accounts .....	(73,900)
Total funding available .....	197,517,189
Senate bill, fiscal year 1982 .....	208,675,745
Transfer from other accounts .....	(192,900)
Total funding available .....	208,868,645
Conference agreement, fiscal year 1982 .....	199,691,264
Transfer from other accounts .....	(208,000)
Total funding available .....	199,899,264
Conference agreement compared with:	
New budget (obligational) authority, fiscal year 1981 .....	+28,340,365
Transfer from other accounts .....	(-95,866)
Total funding available .....	28,244,499
Budget estimates of new (obligational) authority, fiscal year 1982 .....	-1,186,970
Transfer from other accounts .....	(+208,000)
Total funding available .....	-978,970
House bill, fiscal year 1982 .....	+2,247,975
Transfer from other accounts .....	(+134,100)
Total funding available .....	+2,382,075
Senate bill, fiscal year 1982 .....	-8,984,481
Transfer from other accounts .....	(+15,100)
Total funding available .....	-8,969,381
