

25 January 1988

MEMORANDUM FOR: Liaison Officer  
Office of Congressional Affairs, DCI

VIA: Director of Logistics

FROM: [Redacted]  
Chief, Procurement Management Staff, OL

STAT

SUBJECT: Capital Ownership Development Reform Act of 1987,  
H.R. 1807

REFERENCE: Memo for D/L from OCA, dtd 22 Jan 1988, Same Subject

1. The Office of Logistics (OL) has reviewed H.R. 1807 and finds nothing in the bill in its current form that gives us concern. Due to the need to protect sources and methods, the necessity of quick reaction and CIA's unique mission requirements, the Agency is generally exempt from socioeconomic aspects of Federal contracting requirements. As a matter of policy, however, the Agency supports and follows such programs to the extent consistent with Agency mission and security.

2. H.R. 1807 does not impact the Agency in its current form, therefore, we do not believe it necessary to have the hearings monitored by a designee from OL.

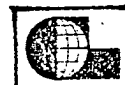

3. Attached is a memorandum from the Chief, Logistics and Procurement Law Division, OGC, dated 22 December 1987, on H.R. 1807 to [Redacted] Office of Congressional Affairs. As reflected in paragraph 1 of this memorandum, we concur with the views stated in the attached memorandum. Please coordinate this response with [Redacted]
