MEMORANDUM FOR: Director of Scientific and Weapons Research

SUBJECT: Appreciation

I want to express my appreciation for the fine efforts of the analysts of OSWR's Space Systems Division in support of the recently-completed NIE 11-1-85. This was a long and difficult task, and the NIO/SP relied heavily on the considerable expertise and drafting skills of the entire division. I think it is fair to say that without the sustained and careful attention that SSD analysts gave to successive drafts of the Estimate, the improvement in quality of this important national intelligence product would not have been possible. Both the management and the analysts of SSD deserve high praise for their excellent performance, and for their dedication to the production of first-rate national intelligence.
