+ PHILIPPINE REMOTE APPROVED - Ambassador Platt, newly arrived in Manila, on 10 September approved FBIS' request to establish a remote monitoring operation within the Manila Embassy to be linked to the FBIS Hong Kong Bureau. The request was approved with the proviso that there would be no increase in American staffing in the Philippines, but FBIS plans for the project have always been based on hiring a U.S. dependent on contract to record and feed programs from Manila. The FBIS bureau chief in Hong Kong is visiting Manila this week to finalize arrangements for the remote monitoring operations, which will substantially improve reception of Philippine media.
