CONFIDENTIALFOREIGN BROADCAST INFORMATION SERVICEOf Special Interest This Week

+ SOVIET ANNIVERSARY - Moscow television is providing extensive coverage of all major events marking the celebration of the 70th anniversary of the Great October Socialist Revolution, including Gorbachev's three-hour speech on the morning of 2 November and the Red Square parade scheduled for 7 November, and this coverage is being made available simultaneously to Headquarters viewers through FBIS' foreign television monitoring facilities. In dealing with the substance of Gorbachev's speech, the FBIS Wire Service began carrying reports and out-of-turn excerpts on his call for revision of Soviet history of the Stalin era and restructuring of the economy soon after the speech ended; the translation of the full text of the lengthy speech cleared the Wire Service within 12 hours.

+ PHILIPPINES REMOTE MONITORING - Following a visit to Manila by the FBIS Hong Kong bureau chief and the regional engineer from Okinawa, the remote monitoring unit at the American Embassy in Manila began limited operations over the weekend. All equipment and communications lines have been installed, allowing Hong Kong Bureau to remotely tune and receive AM and FM radios from Manila. The full capability of the remote unit, including television monitoring, will be achieved later in the year when a contractor is brought on duty to handle functions requiring manual operation of the equipment.
