STAT

There are two unanswered questions set forth in your letter of 8/18. The question on reviewing DCI code has been answered in the negative. However, I have elected to push the issue up the organizational ladder. I am scheduled to be in Atlanta on 9/4 and 9/5. I will use that opportunity to discuss the matter with the appropriate people.

Concerning your question on other users of the system in an IDMS environment, I have obtained the following data. As of this date, there are 22 clients in various stages of implementation using the MSA Manufacturing System under IDMS. Of this 22, 15 are integrated with Purchasing. As I mentioned to you, there are only three operating in an IDMS/DC environment. As a matter of policy, we do not provide one client with another's name unless we clear it with them beforehand.

Since I assumed you may wish to discuss technical issues with another user under IDMS/DC, I have made the necessary arrangements with their project manager. You may contact a Mr. Barry Walsh at The Norton Company - telephone # (518) 273-0100. Barry is the Data Processing Administrator.

Very truly yours,
