STAT

Since you got two for the price of one, I'll do the same.

How that envelope ever reached you is pure magic. My contract people say they cannot change the addresses presently in our system until your contracting officer notifies us (Ken requested this and it is in the works). In the interim, I will try to add the D/P address you provided.

The draft questions you received from  have been forwarded to Winston Salem. Although all of the issues cannot be addressed strictly from a manufacturing point of view, they have agreed to assume the technical lead needed to provide an integrated response. I have told them to call you if they needed additional data during their research. I'll keep you informed of the progress.

Very truly yours,

A handwritten signature in cursive script that reads 'John'.
