Dear General Graham,

Yes, I agree we need strong military intelligence to protect America.

Yes, I've signed my Petition to help strengthen America's military intelligence.

Yes, I want you to swamp the Senate with a quarter-million Petitions supporting a strong military intelligence.

But I know you need to raise \$11,400 in the next 10 days to kick off your campaign.

So I'm mailing you my contribution today for:

\$15 \$25 \$50 \$_____ (other)

(Please make out your check to: The Hale Foundation.)

No, I can't help you even though America may be facing another Pearl Harbor -- with atomic weapons this time.

STAT

Dear Friend,

Please sign the Petition I've enclosed for you.

And mail it back to me right away.

Your Petition is part of a new campaign by The Hale Foundation to make sure America never has another disaster like our failed rescue of the hostages in Iran.

Let me explain.

Believe me, I'm not exaggerating when I say that your survival, your children's survival and your grandchildren's survival may very well depend on the success of our campaign.

I don't know if you were ever in the military, but I served 33 years in the Army. During my last 6 years I was chief of the Defense Intelligence Agency.

Frankly, America is facing the very real threat of another Pearl Harbor sneak attack. Only this time the attack will be with atomic weapons.

Stop. Think what that means to you and each member of your family.

It would mean the end of America.

That's why I'm urgently asking you to help my campaign to stop the liberal attacks on our CIA and our ability to successfully complete important missions -- like the attempt to rescue the American hostages in Iran.

You can help my campaign by signing the enclosed Petition in support of criminal penalties against anyone disclosing our secret agents identity. And background checks on people who handle secret documents. And my Petition calls for an American ability to launch secret missions.

I'm going to present your Petition to the U.S. Senate. We need a strong American intelligence to help detect, and thus deter the Russians from launching a sneak nuclear attack.

In fact, without immediate action to strengthen the CIA, our ability to detect a sneak, nuclear attack will be negligible.

So please, sign the enclosed petition, and return it to me today.

Now, let me tell you what we're up against.

(over, please)

You know, powerful anti-intelligence groups like the American Civil Liberties Union and Americans for Democratic Action won't like my Petition.

But, we've got to beat them.

Because America's security is weaker than I've ever seen it. And this threatens the survival of you, me and every other American.

Remember, our national survival depends on national security.

For example, Newsweek magazine says the halls of Congress are a "prime target" for Russian spies. Or, maybe you saw the Time magazine story on Communist spies working in the halls of Congress.

And yet today there's still no general security program for keeping Soviet spies off Capitol Hill.

But, even more serious is our inability to successfully carry out a secret mission.

Like the attempt to rescue our hostages.

Do you recall the last time the U.S. successfully pulled off a mission like the Israelis did at Entebbe airport?

Perhaps the last fully successful U.S. secret operation was back in 1953. There, our CIA outsmarted the Russians and put the anti-Communist Shah of Iran in power.

Then for years we had a steady flow of Iran's oil.

What's more, the anti-Communist Iran stood between Russia and the oil-rich Persian Gulf.

Now Iran is ruled by crazy Khomeini and his mob.

And Russian troops in Afghanistan are only an hour's flying time from the Persian Gulf oil fields.

But that's not all.

We lost our electronic monitoring stations in Iran -- Russia's back yard. These vital monitoring stations were listening to Russian military communications.

As the former chief of the Defense Intelligence Agency, I know how important military intelligence is to American survival.

Breaking top secret Japanese and German codes during World War II helped win the war a lot sooner.

Military intelligence saved thousands of American lives.

But now liberal Senators like Ted Kennedy want all of our

national security secrets laid out in full view. They want America's secrets spread out before Congressional committees.

They don't seem worried about Communist spies roaming the halls of Congress.

And liberals like Kennedy don't want the U.S. to use electronic listening devices...even though the survival of our country might depend on it.

Now here's the worst.

The liberals in Congress want advance notice of any secret operation.

But suppose a Red spy finds out about a secret mission. It could cost American lives like the Iran rescue attempt.

Do you think we should risk the lives of our men by letting Congress in on our military secrets? I sure don't.

But don't get me wrong. I know there are some fine loyal Americans in Congress fighting back against attacks on our CIA.

And that's why I'd like you to sign the enclosed Petition.

Because I'm going to deliver your Petition, and those of the other Americans I'm writing, to the United States Senate.

Our Petition will help force the liberals to support stronger American intelligence.

And your Petition will be showing the Senate you don't want anymore broken down American helicopters left in the Iranian desert.

So please sign your Petition and mail it to me today.

Because you know what happens to Senators who don't pay attention to voters: they get defeated. You saw it happen in this past election.

So I'm sure the Senators will pay attention to your Petition.

And you can do something else to help after you sign your Petition. You can send The Hale Foundation your contribution for \$15, \$25, \$50 or more.

Here's why I need your dollars.

If I can get 250,000 signed Petitions to the Senate, we have a good chance of making them change our laws. So our secret agents can protect our nation.

But it's going to cost \$62,500 to swamp the liberals with a quarter-million Petitions.

And I need to raise \$11,400 of that sum in the next 10 days.

(over, please)

Page four

Because I want to have my Petition campaign rolling when the new Congress meets.

If we don't change our laws, I'm sure you'll be seeing more failures like the Iran rescue mission.

You and I may even face another Pearl Harbor -- with atomic weapons this time.

But if you and other loyal Americans will take action, I'm certain we can help strengthen America's intelligence operations.

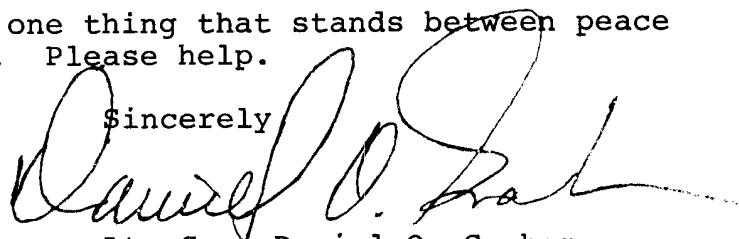

And this means a safer America for you and your family.

So please sign your Petition right now.

And please mail your contribution today to The Hale Foundation for \$15, \$25, or even \$50 or \$100.

Your check may make the one thing that stands between peace and a Russian nuclear attack. Please help.

Sincerely

P.S. Please mail your signed Petition and your contribution to The Hale Foundation in the enclosed envelope. I'm counting on you to mail both of them to me today.
