MEMORANDUM FOR THE RECORD

SUBJECT: SSCI Staffer Green's Query re Warning Meetings

1. SSCI Staffer Ann Green (research assistant on Latin America) today unofficially and informally asked NIO (for Latin America) Bob Vickers whether it would be feasible/possible for her to attend the monthly Warning Meetings on Latin America. She theorized that it would be helpful in her SSCI responsibilities. (Mrs. Green had attended these sessions in the past when employed by the Navy.) Vickers referred the matter to OCA, commenting that although he personally would not mind, others might have objections.

2. The request was discussed with Acting DD/OCA (Senate) [redacted] who conferred with others and authorized me to inform Mrs. Green that it would be better not to advance the request officially as it was unlikely to be approved. This was done; Mrs. Green accepted the suggestion gracefully and stated that she will not pursue the matter further. NIO Vickers was so informed.
