OIT-0611-87
27 August 1987

MEMORANDUM FOR: Deputy Director for Administration
FROM: Edward J. Maloney
Director of Information Technology
SUBJECT: Weekly Report for Week Ending 28 August 1987

25X1

25X1

2. OIT successfully installed new software in the electronic Cable Dissemination System at Headquarters. The new software eliminates the need to use system computer resources for long-term storage of data and significantly speeds message throughput. 

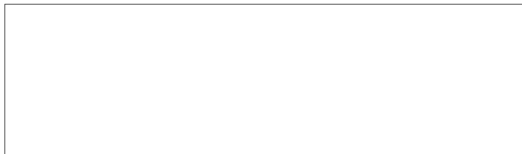

25X1

3. OIT completed a successful test of the communications link between the Headquarters Message Handling Facility and the Support for the Analysts' File Environment (SAFE) External Message Interface software. The test confirmed the system's capability to input cables into the Directorate of Operations SAFE database. SAFE is a major automated intelligence retrieval and distribution system. 

25X1

4. OIT notified all Agency components of the pending revision of the Agency Telephone Directory. Submissions of information updates have been requested by 1 September. OIT already has begun inputting new directory information to be ready for publication in November. Because of component reorganizations and the planned activation of new telephones throughout the Agency, OIT intends to issue a revised directory every six months.
