OIT-0462-87  
16 July 1987

MEMORANDUM FOR: Deputy Director for Administration  
FROM: Edward J. Maloney  
Director of Information Technology  
SUBJECT: Weekly Report for Week Ending 17 July 1987

\*1. On 15 July 1987, an OIT officer met with staff members of the Senate Select Committee [redacted] to provide a deposition concerning Agency procedures for handling narrative cable traffic at CIA Headquarters. A member of the Office of Congressional Affairs also attended. [redacted]

\*2. Board Chairman and President of IBM, Corp., Mr. John Akers, visited the Agency on 15 July 1987 under the auspices of OIT. Mr. Ed Maloney, D/OIT, hosted the visit and provided a short briefing and tour of OIT facilities. Judge Webster hosted a luncheon for Mr. Akers which was attended by senior Agency officials including the DDCI, the Executive Director, the DDA, the DDS&T, the ADDI, D/OIR, D/OIT, D/OC and DC/IMS/DO. [redacted]

3. OIT personnel have begun a periodic review of employee positions requiring originating classification authority. The Directorate of Operations and the Foreign Broadcast Information Service have completed their revalidation thus far. This revalidation is done under Executive Order 12356, National Security, which requires that originating classification authorities be kept to a minimum. [redacted]

4. OIT personnel have installed a special voice circuit between the Office of Security Duty Office and the Fairfax County Fire Department. This line will speed connection to the Fire Department from the Duty Office during emergency situations. [redacted]

5. The recent hot weather has caused an increase in the number of Wang and Xerox laser printer problems reported to the OIT Service Desk. Poor print quality, damp paper and frequent machine jams are occurring in the high humidity. The problems are particularly evident in Agency outbuildings after a weekend when air conditioning is turned off.
