Washington, D.C. 20210

File Number:

AUG 15 1988

The Honorable William H. Webster  
Director, Central Intelligence Agency  
Washington, D.C. 20505

Dear Mr. Webster:

The enclosed statement reflects the direct dollar costs of compensation and medical benefits paid under the Federal Employees' Compensation Act during the expense period of July 1, 1987, through June 30, 1988, for injuries or deaths sustained after December 1, 1960, by employees under your jurisdiction. It is presented by the Office of Workers' Compensation Programs (OWCP) in accordance with Section 8147 (b) of Title 5 United States Code.

Section 8147 (b) requires that an agency or instrumentality not dependent on annual appropriations reimburse the Employees' Compensation Fund for the costs expended on its behalf during the first 15 days of October following the date of this statement. Agencies dependent upon an annual appropriation are to include the amount billed in their annual budget request for the upcoming budget year, in this case, Fiscal Year 1990.

President Reagan, recognizing not only the impact of these significant costs but also the personal suffering each case represents, established a safety and health policy that requires agencies to reduce workplace injuries and illnesses. The Department of Labor's Occupational Safety and Health Administration (OSHA) is charged with providing guidance and assistance to you in this endeavor. We urge that you take a close look at your agency's safety and health program and provide the personal support that will be necessary to reduce your agency's injury and illness experience. OSHA's Office of Federal Agency Programs will assist you in any way it can.

The Office of Management and Budget (OMB), as a part of their Intra-Agency Insurance Initiative, monitors the actions which Federal employing agencies have taken to improve the management of the program within the agency which processes benefit claims

- 2 -

under the Federal Employees' Compensation Act (FECA). As part of this initiative, OWCP is prepared to assist agencies in devising a strategy which will allow them to set up a program which tracks claims processed by OWCP, to provide information which assists OWCP in making a prompt decision on the claim, and to monitor expenses paid under FECA. We believe that agencies can take positive steps which will increase accountability for costs incurred under FECA and increase the opportunity that an injured employee can promptly return to duty as a Federal employee. Any questions regarding the Intra-Agency Insurance Initiative should be directed to Mr. Thomas M. Markey, Associate Director, Division of Federal Employees' Compensation, OWCP, at 523-7552.

If additional information is required concerning the enclosed statement, please have a member of your staff contact Ms. Eleanor H. Smith, Director, Division of Financial Management, Office of Management, Administration and Planning, Employment Standards Administration, at 523-6589.

Sincerely,

LAWRENCE W. ROGERS  
Director, Office of Workers'  
Compensation Programs
