S-36,259/DAM-1

MEMORANDUM FOR THE DIRECTOR OF CENTRAL INTELLIGENCE

SUBJECT: DoD Initiative on PW/MIA - Project STONY BEACH (S/NF)

1. (S/NF) [redacted] during 1985, DIA proposed and coordinated with the Department of State [redacted] a proposal for deploying a TDY collection team to Southeast Asia tasked to collect data on the live sighting issue.

25X1
25X1
25X1

2. (S/NF) This team has conducted debriefing operations in Southeast Asia since its deployment in June 1987. The collection effort resolved many live sighting reports on alleged PW/MIAs and provided a broad cross-section of information to support the analytical effort. The clandestine development of an "on the shelf" collection capability against potential collection targets is now well formed.

3. (S/NF) Based on DIA's formal review of the team's results, I strongly believe we must continue the effort. We proposed to the Department of State the assignment of a nine-man team, seven based in Bangkok, with one each in Hong Kong and Kuala Lumpur. We believe a 2-year program, with a mid-term review, will permit us to fully address the issue and determine the need for future commitment. The proposal is currently in NSDD 38 staffing and coordination. A decision from State is expected by the middle of August 1988.

4. (U) I solicit your continued support of this effort.
