25X1

Declassified in Part - Sanitized Copy Approved for Release 2012/08/15 : CIA-RDP90G01353R002100040005-4

- -- The Directors of the Office of European Analysis (EURA) and SOVA attended a Senior Arms Control Group meeting on conventional arms control. The Office of the Secretary of Defense and the Joint Chiefs of Staff expressed concern over the low level at which decisions are being made. General Powell was concerned that Gorbachev would trump us with a proposal to which we have no credible response.
- -- At the FBI's request, the Office of Scientific and Weapons Research (OSWR) briefed senior industrial security representatives in Los Angeles on Soviet technology acquisition efforts.

#### Administrative

- -- The Office of Logistics has completed moving the DI's Office of Scientific and Weapons Research from the Original Headquarters Building to the New Headquarters Building.
- -- The Office of Security conducted a successful test of the Security Information Management System (SIMS) name check interface with the FBI, paving the way for full operational capability on 6 September.
- -- The Office of Training and Education signed an agreement with the FBI to exchange foreign language testing services and test instruments. The agreement will save both organizations thousands of dollars in test development costs and help prevent duplication of effort.

OCA 88-2782 19 August 1988

MEMORANDUM FOR:

The Director

The Deputy Director

STAT

FROM:

Acting Director of Congressional Affairs

SUBJECT:

Weekly Report

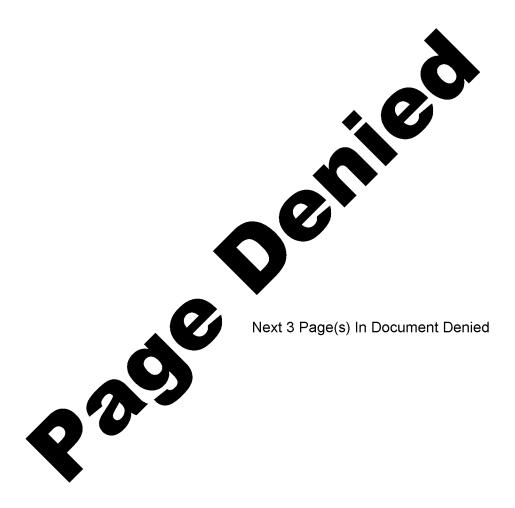

Conference Report on FY '89 Intelligence Authorization Bill. This week the report of the conferees on the FY '89 authorization bill became available to us. There were no surprises insofar as legislative items were concerned: the conferees essentially adopted each side's proposals. The unclassified portion of the report contains major new reporting requirements for the DCI and the Secretary of Defense concerning narcotics and counterintelligence issues. Quick action is expected on the report when the Congress returns, clearing the measure for Presidential action thereafter.

FY '89 Grassley Secrecy Agreement Amendment Adopted. Despite efforts by the Agency, the Executive Branch and the Senate Intelligence Committee staff, the conferees on the FY '89 Treasury, Postal Service and General Government appropriations bill adopted an FY '89 version of the "Grassley amendment" restricting the use of secrecy agreements containing the word "classifiable." Since passage of the FY '88 version and the resulting litigation, the problem has been obviated vis a vis Executive Branch agreements and the district court has held the FY '88 version to be an unconstitutional infringement of the President's power to protect national security information. Because of this, the only immediate effect of the conferees' action appears to preserve against a claim of mootness an appeal of the district court's decision to the Supreme Court.

### DCI WEEKLY REPORT PUBLIC AFFAIRS OFFICE

### Media Relations

This week was a relatively quiet one for CIA, with media attention focused on the Republican convention. D/PAO and Gill Gertz, WASHINGTON TIMES, addressed the Intelligence Issues and Challenges seminar on 16 August. Participants of this seminar have consistently rated high PAO's presentation of the Agency's attitude toward media relations and the view of journalists who cover the intelligence beat. Following his presentation and question and answer session, D/PAO spoke to seminar in Gertz's absence to provide the Agency perspective on dealing with the media.

## Executive Appearances and Invitations

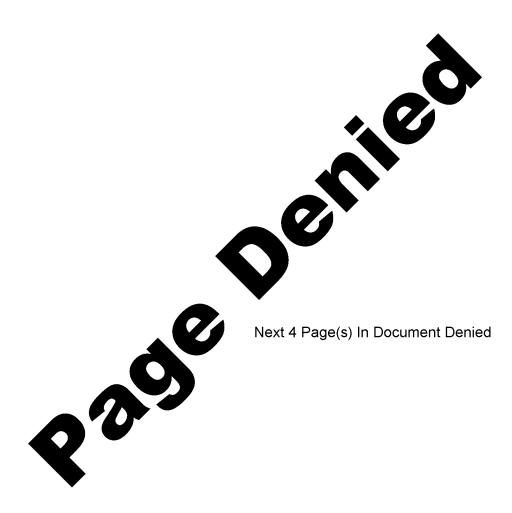

Coverage of the DCI's address at Northwestern University's Kellogg School of Management appeared in 17 different newspapers nationwide. Articles were carried in the Chicago papers; Norfolk, Virginia; Hartford, Connecticut; and Stockton, California to name a few. The articles emphasized the Director's theme of "trust."

# Public Relations Unit

25 <b>X</b> 1	special edition of the Policy Studies Review on Intelligence, and is seeking Agency funding. will be meeting with Director of the Center for the Study of Intelligence in OT&E to see it we should support such a project. The fourth military cadet briefing brought to 133 the number of cadets we spoke with this summerwe expect to have a similar program next year.
