The Honorable William Webster
Director
Central Intelligence Agency
Washington, D.C. 20505

Dear Bill:

Enclosed is a packet of information concerning a security gate system about which I have recently been informed. The system is manufactured by some constituents of mine, and it does appear to be a superior product. I would appreciate your reviewing the enclosed materials and giving every appropriate consideration to whether there might be some need for such a system to be used by the Central Intelligence Agency.

With best personal regards,

Most sincerely,

Alan K. Simpson
United States Senator
