SUBJECT: Cancellation of SSCI Hearings on CI and Security
Issues

1. I spoke with John Elliff who informed me that the SSCI will not hold hearings on CI and security as had been planned. In lieu of hearings, the staff has been tasked to learn what progress had been made and to identify any problems in these areas. Conclusions will be provided to Members in an "internal memorandum".

2. Elliff said he would provide a schedule of briefings, but wants to start and complete SEO prior to Members leaving for adjournment. The staff would follow with the Moscow New Office Building, personnel security, and counterintelligence.
