MEMORANDUM FOR: DDCI

1. For your action.

2. The attached is to keep you informed on the space commercialization issue. You will need to select a representative for future SIG meetings.

3. Deputy Director of Planning and Policy Office, Intelligence Community Staff, represented General Heinz at the preparatory meetings for the EPC on space commercialization. He seems a logical choice to attend the SIG meeting on the Intelsat issue. 25X1

National Intelligence Council

MEMORANDUM FOR THE RECORD

SUBJECT: EPC Meeting 14 January on Space Commercialization

1. The EPC agreed to fund the Industrial Space Facility (ISF) under a sole-source contract. NASA objected strenuously to such a contract. The Council also agreed to an option that would set up a National Microgravity Research Board chaired by NASA and including representatives from Commerce, Transportation, Energy, Defense, NIH, and NSF. The board, among other duties, would allocate federally owned or leased space in Spacelab, ISF, Spacehab and the Space Station. NASA Administrator Fletcher said he would appeal the decision "to God, if necessary" to have it reversed.
