TO: Distribution List

SUBJECT: Status of Defense Intelligence Estimates in Process (U)

1. Attached is the April 1988 report on the status of defense estimates in process in the Directorate for Estimates. This report is updated and issued quarterly.

2. Each geographical section lists our planned production of defense estimates for the coming year, and concludes with a list of estimates completed in the previous three months.

STAT

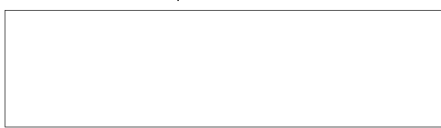

3. Occasional adjustments may have to be made to the schedule as we attempt to respond to priority areas of interest or to requirements outside the defense estimates program. In some cases, items will be dropped if they no longer serve the intended purpose.

4. The "Production Completed" section represents products approved by the Directorate for Estimates and forwarded for printing and distribution. Thus, you may find that in some cases receipt of the published estimate will lag behind our status report.

5. Comments on our defense estimates program are welcome and should be directed to [redacted] Special Assistant for Departmental Estimates, (202) 373-4861, Autovon 243-4861. In particular, we invite your recommendations for any additional topics you wish to be included or for areas of special interest you wish to be covered in any of the listed estimates.
