## EXECUTIVE OFFICE OF THE PRESIDENT OFFICE OF SCIENCE AND TECHNOLOGY POLICY

WASHINGTON, D.C. 20506

July 18, 1988.

Dear Mr. Webster:

Enclosed for your clearance is the Federal Policy for the Protection of Human Subjects to be proposed for public comment in the Federal Register as a common rule (enclosure A). Adoption of this policy will implement a recommendation from the President's Commission for the Study of Ethical Problems in Medicine and Biomedical and Behavioral Research that "all federal departments and agencies adopt as a common core the regulations governing research with human subjects issued by the Department of Health and Human Services." This policy has been developed by the Interagency Human Subjects Coordinating Committee, a committee of the Federal Coordinating Council for Science, Engineering and Technology. The Interagency Coordinating Committee included a representative from your organization as well as eighteen other organizations (enclosure B).

Two organizations propose to depart from the Federal Policy, the Department of Education and the Food and Drug Administration (FDA). These departures and the FDA Notice of Proposed Rulemaking are included in enclosure C.

For your information, I am enclosing a common preamble (enclosure D) that will be published in the <u>Federal Register</u> and which provides some background to the proposed rule.

The Federal Policy has been in development for some time and has been widely shared in each of the organizations involved. Therefore, I am asking for clearance from all organizations within two weeks of the date of this letter so that we can proceed to publish in the <a href="Federal Register">Federal Register</a>. OMB and the Office of the <a href="Federal Register">Federal Register</a> have arranged for streamlined procedures for proposed common rule publication.

The Central Intelligence Agency (CIA) has indicated that it will follow the Federal Policy as adopted by HHS in its regulations, responding to Executive Order 12333 requiring the CIA to conform to guidelines issued by the Department of Health and Human Services

Declassified in Part - Sanitized Copy Approved for Release 2012/11/23 : CIA-RDP90M01364R000800100001-8

(HHS). Although the CIA does not propose to codify the Federal Policy as regulations, I am asking for your concurrence prior to publication in the Federal Register.

Please return the signature page indicating your concurrence (enclosure E) to Dr. Joan P. Porter, Office for Protection from Research Risks, National Institutes of Health, Building 31, Room 4B09, 9000 Rockville Pike, Bethesda, Maryland 20892.

We want to move rapidly to ensure a coordinated federal approach for protection of human subjects in research. I believe promulgation of the common rule will help us achieve that goal. I appreciate your priority attention to clearance of these documents.

Sincerely,
William R. Graham
Director

The Honorable William H. Webster Director, Central Intelligence Agency Washington, D.C. 20505
