MEMORANDUM FOR: Deputy Director for Intelligence

VIA: Deputy Director for Administration

25X1 FROM:
Director of Logistics

SUBJECT: Findings and Recommendations of PMR Team

1. The Procurement Management Review (PMR) team completed its review of the Directorate of Intelligence Contract Team (DI/CT) in June 1987. Its report, which is quite lengthy, includes general recommendations for improving the entire Agency procurement system and recommendations that specifically apply to the DI. The Office of Logistics (OL) is reviewing those recommendations which will enhance the entire procurement system and will take appropriate actions. It is requested that you review and consider the attached recommendations which apply specifically to the DI.

25X1 2. The final draft of the full PMR report was reviewed with former Chief, CT/DI, and by the current C/CT/DI. I believe that, working together, the DI and OL can appreciably improve the procurement process while satisfying Federal procurement laws and still respond to DI requirements.

3. This review of the DI contracting effort is the first formal survey ever conducted by OL. I want to express my thanks to senior DI management and the Management, Planning and Services Staff for its cooperation during this review.

25X1 4. If you have any questions or comments concerning this matter, please contact me
