2. In response to his previous inquire, Legislative Counsel informed Mr. Borden, Executive Director of the staff of the Joint Atomic Energy Committee, that the General Advisory Committee of the Atomic Energy Commission did not have access to CIA raw intelligence information but merely to the finished product. Access is limited to Dr. Colby and Mr. Henderson of the Atomic Energy Intelligence staff. Legislative Counsel also informed Mr. Borden that our semi-annual report on Soviet atomic energy developments had been approved and should be delivered to the Committee within a week. In addition, Senator McMahon's request for information on certain phases of  atomic energy program would be answered on a personal basis to the Senator in view of the channels through which such information should normally flow.
