MUNICH 10.

Reference: DEPTTEL 4804, March 18.

Although doubtful if such testimony of substantive interest or value not already on public record can be elicited from refugees now in UK, we will of course be happy to give fullest possible assistance. Foresee no difficulties here and no official objection to procedure indicated, but -- particularly in view of unfavorable public attention drawn to Katyn hearings -- it is most desirable that it be carried out quietly as possible.
