Katyn Forest Investigation.

Mr. Ben Brown in Mr. McFall's office has informed me that the Rules Committee has authorized the Katyn Forest Investigating Committee to hold hearings in Europe. Congressman Flood and Mr. Mitchell, the Committee Investigator, are proceeding to Germany in the near future and Messrs. D'Kanosky and Puchevski, Committee investigators, are going to Paris to initiate preliminary investigations. The remainder of the Committee will be leaving in mid-April. The State Department is sending Mr. Victor Furse, Special Assistant to the Deputy Under Secretary for Administration, with the Committee as the State Department representative.

The Subcommittee expects to hold hearings in Berlin and Paris and possibly in other cities as well.
